The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE is issued on Saturday morning, with the latest news up to midnight of Friday.

TERMS OF SUBSCRIPTION—PAYABLE IN ADVANCE.

THE COMMERCIAL AND FINANCIAL CHRONICLE, delivered by carrier to city subscribers, and mailed to all others:
For One Year (including postage)..... \$10 00
For Six Months..... 6 10
Subscriptions will be continued until ordered stopped by a written order or at the publication office. The Publishers cannot be responsible for Remittances unless made by Drafts or Post-Office Money Orders.

Advertisements.

Transient advertisements are published at 25 cents per line for each insertion, but when definite orders are given for five, or more, insertions, a liberal discount is made. No promise of continuous publication in the best place can be given, as all advertisers must have equal opportunities. Special Notices in Banking and Financial column 60 cents per line, each insertion.

London Office.

The London office of the CHRONICLE is at No. 5 Austin Friars, Old Broad street, where subscriptions are taken at the following rates:

Annual Subscription to the Chronicle (including postage)..... 23 2s.
Six months' subscription..... 13s.
WILLIAM B. DANA, { WILLIAM B. DANA & CO., Publishers.
JOHN C. FLOYD, JR. { 79 and 81 William Street, NEW YORK.
Post Office Box 4594.

A neat file-cover is furnished at 50 cents; postage on the same is 16 cents. Volumes bound for subscribers at \$1 50.

A complete set of the COMMERCIAL AND FINANCIAL CHRONICLE—July 1865, to date—is for sale at the office. Also one set of HUNT'S MERCHANTS' MAGAZINE, 1839 to 1871, sixty-three volumes.

The Business Department of the CHRONICLE is represented among Financial Interests in New York City by Mr. Fred. W. Jones.

SOME OF THE CAUSES OF OUR BUSINESS RECUPERATION.

We have lately had a suggestive illustration of the readiness with which the money market recovers and shows that undertone of strength which was its great characteristic during the severe trial and strain of our war finance. In whatever direction we look at the present moment, we meet proofs of more or less improvement soliciting our attention. The great financial centres are all being drained of cash to move the crops. In consequence of the movement of produce, money is finding its way into the pockets of farmers and country merchants, collections are being more freely made, the earnings of the railroads show a responsive increase, the banks and the capitalists find it easier to employ their surplus funds, and there is a general indication in all the departments of trade that the activity and the volume of transactions is large and increasing. Of course there are exceptions to this general rule; and too much of the business doing realizes scanty profits. But, after mak-

ing due allowance for these drawbacks, we must still recognize the fact that, throughout the country, there is an active, healthy and extensive trade going on, and that the improvement appears for the present to be rather on the increase. Is this anticipation of further activity well founded, and what are the causes of the general recuperation of business?

The improvement, as we have often intimated, is due to a large variety of concurrent causes, some of which have to do with the money market, while others are of a more general and obvious character. Let us briefly look at some of these monetary causes, as they may be called, which are now contributing with other forces to build up and restore the fabric of our industry and commerce.

First of all it is expected that capital will be abundant in the channels of business. The great need of our national industry, the obstacle which has impeded its growth for the last quarter of a century, is the free accessibility of capital.

Our banking system—comprising the national, State, and private banks—is more fully developed than that of any other country except England, but there is something defective in that part of our financial machinery which supplies agriculture. We want to add to our system of finance something which shall do for our farmers what the 3,000 banks of the United States do for our merchants, manufacturers, and commercial men. The defective organization of our monetary mechanism in this and other respects has caused us to suffer from monetary stringency to a greater degree than almost any other great commercial nation of modern times. Such disastrous invasions of monetary trouble are looked forward to by our merchants just as an approaching storm is watched for by a prudent mariner at sea. No such trouble seems impending now. The monetary horizon is clear. And this indication is the more important because the country has so lately suffered from a panic caused by this very defect of floating capital. The banks are now full of deposits. Are these accumulations of funds accessible? Can borrowers obtain them for legitimate business purposes and on fair mercantile securities?

This brings us to our second point, which is, in some respects, more important than the first. Are the owners of capital willing to lend? Is there a healthy state of credit in this respect? The incipient prosperity of business which we see around us not only answers this question in the affirmative, but it goes further. It looks into the future, and infers that this state of favorable credit, this ease of money, this flexible disposition of capitalists to lend freely on mercantile securities, will continue

without serious disturbance for some months at least. It is not a little singular that in presence of the trouble which threatens some of the money markets of Europe, and actually prevails in others, there should be this growing confidence in regard to our own monetary prospects for the early and remoter future; but so it is.

Thirdly, the mercantile recuperation which is developing itself rests on the belief that the discussions of Congress will not this year be used, as they have been in the past, to help speculation by disturbing the money market, and thus perplexing and embarrassing the business of the country. There are not a few persons who affirm that the nefarious clique of speculators, who attempted in former years to gamble in Wall Street by means of currency bills moved backwards and forwards at Washington, will not do so this year, but will be driven to some more honest means of living. However this may be, it is certain that the powers of these men for evil will be much less this year than they have ever been before.

These are some of the reasons to which the ease in money and the recuperation of business are ascribed. A more important reason still is perhaps the unexcitable condition of the public mind, which refuses to be agitated by the most perplexing incertitude. Something of the same sort has been noticed by the French financial writers, who have given it the name of "moral scepticism," and have frequently noticed it as prevailing in the Bourse at Paris. People there, as here, have become so accustomed to an atmosphere of uncertainty that they refuse to be agitated by circumstances and events which, in another epoch, would have caused an intense and general excitement, if not a panic. Although, therefore, in reviewing our present and prospective financial situation, it is not easy to see far into the future, still we may safely expect that money will be easy during the Winter, and that the course of general business does not threaten to be much disturbed by any troubles arising out of the financial machinery of the country. Whether any momentary disturbance is likely to be developed here by contingencies arising out of foreign financial movements, it is, of course, impossible to foresee. But very few of our financial men have any apprehensions of such an event.

CONGRESS AND ITS FINANCIAL POLICY.

The near approach of the meeting of Congress has already begun to exert a sensible influence in the money market. Two great questions are expected to be subjects of discussion, if not of new legislation, in the coming session of the National Legislature. One of these is the funding of the debt, and the other the resumption of specie payments. As to the funding of the debt, it has been slowly advancing, and a notable progress has been accomplished during the last year. To-day ten millions of the five-twenties fall due, and for 33 millions more calls are outstanding which have not yet expired. When the whole of these called bonds have been paid off, there will remain outstanding of the five-twenties of 1864 no more than sixteen millions, and before the close of the year this residue of the 1864 bonds will probably be called in. This is a very fair progress considering all the circumstances. Here and abroad it is well known that the difficulties under which the work of funding has been carried on during the last two or three years, have much hindered the operations of the Syndicate, but it is gratifying to find that so much has been actually accomplished. Twelve millions of the new fives are all that

now remain of the five hundred millions authorized in the law; and, as the option of the Syndicate is to expire next Monday, we have little doubt that before Congress assembles Mr. Bristow will be able to announce that the whole of the fives have been negotiated. The road will then be clear for a new departure, and there is much reason to believe that our progress will be hereafter more satisfactory and more rapid. Under the funding acts of 1870 and 1871 1,000 millions of fours remain to be negotiated, and 100 millions of four and a half per cents. In view of what has been accomplished by France in the funding of her immense war debt during the last three years, there ought to be no difficulty in our negotiating in Europe the whole of these four per cents on advantageous terms.

Such at least is the opinion expressed by some of our shrewdest financial men, who sustain it by several cogent arguments. They urge, for example, that the danger of currency inflation is now over for some time to come, and that the overwhelming voice of the people of the United States, as expressed in the late elections, has completely swept away this formidable difficulty from the path of our financial progress. Next they contend that in Europe there are \$3,000,000,000 of new capital created every year, more than half of which seeks investment in securities of one sort or other, and that this year a larger amount than usual will be attracted towards American securities, in consequence of the recent default of the Turkish government securities and the enormous losses which these and other defaults have inflicted upon capitalists, investors, and speculators, who have been ambitious to get 8 or 10 per cent. for their money, forgetting the cardinal maxim of practical finance that "high interest implies a poor guarantee for the safety of the principal, while a low interest implies high guarantees." These "high guarantees" are more than ever likely to be sought by the investing public in Europe. And, it is argued, the four per cent. bonds of the United States may be expected to command very general favor if properly introduced into the European money markets as the securities of a government which has not only twice redeemed its public debt, but has within a few years actually paid off more than 650 millions of its bonds and securities before maturity.

There is another circumstance which has been referred to as favorable. The new funding loan is to help us in paying off old bonds, of which a large proportion are now in Europe. Hence the negotiation of the fours will be a simple liquidation of one class of bonds by another, and it will not impose so heavy a burden upon the resources of the foreign money markets as it would do if the new bonds were likely to absorb new capital, and if the proceeds were to be carried out of the country, as have the proceeds of most of the foreign securities negotiated in England during the last five years.

There is considerable force in most of these arguments, and we do not wish for a moment to impair it. But those persons who feel this force the most, will agree with us that they are wholly unable to estimate its value, except they assume that Congress will do nothing to impair the credit of the government. It is therefore of the highest possible moment that if our debt is to be funded at a lower rate of interest, and if the policy of negotiating a four per cent loan in Europe is to be successful, we should refrain in Congress from the agitation of wild schemes of finance which shake the fabric of the national credit, and which have obtained but too much favor in the past.

One of the official labors of Mr. Bristow during the

current year will be the negotiating of the funding bonds and the converting into them the redeemable five-twenties. When this task is finished, and the great body of the public debt is refunded at four per cent, the interest charge, which now imposes so heavy a burden upon the industry of the country, will be enormously diminished. Mr. Chase expected to make a large reduction of interest, and Mr. McCulloch actually began to accomplish this desirable result. But he was too much engrossed with other fiscal duties incident to the management of the war debt to do much in reviving Mr. Chase's plans for the refunding of the debt; and indeed the time for that achievement had not then come. All that Mr. McCulloch could do in the exigencies which surrounded the Treasury was to redeem the interest-bearing legal tenders and to pay off part of the principal of the public debt, which, from its highest point, 2,773 millions July 1, 1866, fell to 2,588 millions July 1, 1869, and has since been further reduced to 2,118 millions to-day. We have no need to attempt any detailed or elaborate solution of the question, how it is that more has not been done for funding or paying off the debt since 1869, and who is to blame for the delay. This problem is delicate, complicated, and too broad for our present limits. It is, however, too important to be left wholly without notice. And we may be well assured that one part of the difficulty has notoriously arisen from the currency agitation which, in and out of Congress, has been kept up almost without intermission during the last few years. Scarcely had Mr. McCulloch paid off 200 millions of the public debt and funded into long bonds an embarrassing multitude of short obligations, such as certificates of indebtedness, compound interest notes, one and two year five per cent legal tenders, with some 80 millions of redundant greenbacks, when there arose a cry that we could pay off by voluntary subscription the whole public debt, and one of our newspapers printed day after day columns of names of men who had promised to give various sums towards the patriotic subscription for paying off the war debt. Meanwhile the intoxication of the war inflation began to pass off, and for the first time in 1868 an outcry began against contraction of the currency.

From that time the inflationists began their agitation against resumption. Until now the cry has been kept up, with varying success, and in this agitation we have one of the most fruitful causes of the delays and weakness of the funding operations. Mr. Boutwell on taking office, 11th March, 1869, immediately revived the project of funding the redeemable five-twenties at 4 per cent. After a careful inquiry he satisfied himself that a foreign loan could be made, and that some 30 millions a year could thereby be saved in interest alone. After about a year's discussion, the law of 14th of July, 1870, was passed, which authorized the Secretary to issue 1,000 millions of fours; to aid him in selling them, 200 millions of fives were sanctioned and 300 millions of four and a half per cents. The work did not go on quite so swiftly as was anticipated, and Congress, at the instance of the Secretary, passed the law of 20th January, 1871, authorizing 300 millions of five per cents; making 500 millions altogether. Of these 500 millions the Treasury has sold, in nearly six years, 488 millions, leaving 12 millions unsold at present. The four per cents have not as yet been offered to the public, and it is towards this important part of the funding loan that the chief attention of the public is now directed. As we have said, however, the result hoped for may still be indefinitely delayed. If the negotiations

are to be more successful in the future than in the past, it is of the highest moment that Congress should not adopt any course of action which will be likely to impair to any degree the credit of the government, for on that credit the prospects of our foreign funding loan very much depend.

"COUPON CLIPPERS."

The weakest of all demagogues are those who attempt in this country to stir up ill-will against capitalists, and upon it hope to gain political success or advantage.

In parts of Europe such a cry might force a permanent following. There the distinction is marked; it is easily known who the capitalists are and they are the few. But here we are all capitalists, or soon hope to be; and our little one bond that we have stuck away in our tin box (for we early arrive at the dignity of a tin box) is just as sacred, as the stack of them is to our more fortunate or unfortunate neighbor, and places us in the same boat with him. Besides, five years hence we expect our one bond to have become ten or twenty, or possibly more. But, perhaps, we have no bond yet; then it is the little house and lot nearly paid for, or the business enterprise we have ventured our all in; whichever it be, it binds us firmly to law and order, and makes our whole nature revolt against such an injustice which, if carried to its logical conclusion, hits the little cottage as well as the palace, the one bond as well as the twenty. We all swim in the same water, and the poison which is imparted to it, perhaps to kill the big fish only, kills the little ones as well. Hence there is a common interest among the large body of our people binding them together, and forcing them to resist any anti-capitalist movement. A good illustration of this truth may be found in the action of our German population during the fall elections. The large majority of them are men of very small means—perhaps having a few hundred dollars in a savings bank, or a little lot and cottage, or one or two bonds—but they belong to the frugal, saving class, and if they have one bond to-day it will be two next year. Where were they found when these questions arose? Unitedly, against even the suspicion of bad faith, fighting for a sound currency. And the longer these questions are discussed, the more certain it is that every man who is accumulating, or hopes to accumulate property, whether he be a day laborer, or a mechanic, or a farmer, or a merchant, or a banker, will inevitably gravitate in the same direction.

Nor is this all;—higher and deeper than self interest is another feeling which inevitably works the failure and marks the folly of such a crusade; and that is the moral sense of the average American. Among us, thieves are a distinct class. To be sure it has of late years been a growing class and has reached the dignity of two grades; the common thief and the official thief. But public sentiment does not favor either. Nor is it in sympathy with any movement which seeks to harm any class, high or low, whether the attack is made boldly as in communism or disguised by a more circuitous approach. Hence, any party whose stock in trade consists mainly in the names "Wall street conspirators," "Bloated capitalists," "National bank monopolists," "Coupon clippers," may possibly at first excite a considerable following, but that following will fall away with each succeeding day's thought. It is a dishonest attempt to gain an end through prejudice against the whole saving class, and carried to its logical conclusion makes property valueless. We can all see this, whether what we have accumulated is in a

savings bank, or used in securing a home, or invested in bonds, one or many; and seeing it, whether it directly touches us or not, we still recognize the dishonesty of the movement and repudiate it. Such being, as we understand it, the sentiment of the average American, a party which adopts as its principles, these or similar war cries, had better put on mourning at once.

But there is still another reason why no such crusade can succeed, and that grows out of the peculiar dependence upon the class attacked, which all among us must feel. Capital is the want of this new land. We have undeveloped wealth on all sides of us. Every State needs its rich mines opened and worked, and its rich lands and general industries cultivated; while nearly every individual has his little enterprise and the hope and possibility of making through it a fortune. Capital, however, is the first necessity, and it comes, establishing the closest intimacies between sections most remote. More is constantly wanted, and this has been so since the war ended, until these "coupon clippers" (meaning, we suppose, thereby holders of United States bonds) have been largely changed into the holders of Western and Southern securities. A very small portion of the obligations of the United States remain in this country; the money of our "coupon clippers" has much of it been taken out of those obligations and used, as already stated, in developing the West and South. And we as a country are wanting more capital, and are seeking to draw it from every foreign money centre. What harm then the success of such a party could do? How it would frighten off the timid lender? Our good sense teaches us this and forbids such success. The granger movement was something of this kind. Its disintegration was consequently very rapid; and it would never have grown to the proportions it did, had it not been for real grievances as its basis. There is too general and close a union between capitalist and producer for the latter long to engage in any effort which is antagonistic to the former.

We thus see what elements of strength such politicians fight against. Their opponent is not "Wall Street," in the sense they ignorantly suppose—it is the saving class, the large majority of every State, united by self-interest, the strongest of all ties; it is the high moral sense which pervades the land; it is the necessity of the country and every section of it for capital, and the knowledge that the success of such senseless, shameless appeals will frighten it away. Wall Street—the actual Wall Street as it is—has a double existence. In its lower life it is a place where the too confiding youth loses his money, and nine out of every ten of that moving mass is more likely to be short of something than the real possessor of a coupon bond. But there is a Wall Street—apart from this mere speculative side—the embodiment of the principles of financial honor, which may be very properly taken as the representative of the saving, conservative class of the whole country. As such, let the appellation given by these crusaders stand, a good type of the true men in the land, the Nation's guaranty of good faith.

RAILROAD EARNINGS IN OCTOBER, AND FROM JANUARY 1 TO NOVEMBER 1.

The principal increase in earnings in October, 1875, as compared with the same month of 1874, is shown by the Central Pacific and the St. Louis Iron Mountain & Southern roads. The earnings of Union Pacific for Oct. are not furnished. Several prominent roads report their corrected earnings for Sept., as shown in the statements

given below. The Ohio & Mississippi earnings have been published for the four months ending Oct. 31, 1875, from which the earnings for the past ten months of the year have been compiled in the table below.

There are too few reports to form any estimate of the earnings of trunk lines to the west; the increased rates went into effect Nov. 1, and from that date forward it is supposed that the net earnings of the principal trunk lines will show a material improvement, so long as they abide by their mutual agreement with each other on freight and passenger rates. While the public will be reasonable and accept such an advance as will enable the roads to earn a fair compensation, they will not tolerate any extravagant prices in the present dull times, and there is little fear that the railroad managers will be so unwise as to undertake, on the close of navigation, to impose any extraordinary rates for freight or passenger transportation.

The movement at the Stock Exchange to compel companies whose securities are there dealt in to furnish statements of their earnings and expenses, meets with general approval. The Committee on Stock List, to which applications to have securities placed on the list are addressed, have drawn up a form of agreement which each company making application for its securities must sign. This agreement requires the officers of the company to furnish a statement of earnings and expenses at stated times, and such other information as the Governing Committee may deem desirable.

RAILROAD EARNINGS IN OCTOBER.				
	1875.	1874.	Increase.	Decrease.

Mobile & Ohio.....	149,821	155,202	5,381
Philadelphia & Erie.....	344,047	336,150	7,897
St. P. & S. C. & S. C. & St. P.	77,305	86,743	9,438
Total.....	\$2,008,851	\$2,080,909	\$59,650	\$81,708
Net decrease.....	\$22,058

GROSS EARNINGS FROM JANUARY 1 TO SEPTEMBER 30.				
	1875.	1874.	Increase.	Decrease.
Mobile & Ohio.....	\$1,148,130	\$1,475,157	\$.....	\$327,027
St. P. & S. C. City & S. C. & St. P.	553,194	603,939	70,795

The net earnings of the Philadelphia & Erie Railroad for the month of September, 1875, were \$148,150, against \$129,347 in September, 1874, being an increase of \$18,803; for the nine months ended September 30, the net earnings were \$775,366, against \$677,388 for the corresponding period of last year, showing an increase of \$97,978. The net earnings of the Georgia Railroad for September, 1875, were \$54,880, against \$22,819 in September, 1874, an increase of \$32,061.

Below we give a statement of the earnings and expenses of the Houston & Texas Central Railroad for the month of September, 1875 and 1874:

	1875.	1874.
Gross earnings.....	\$293,761	\$254,533
Expenses.....	185,653	147,996
Net earnings.....	\$158,109	\$111,538

In the subjoined statement are shown the receipts and expenses of the Mobile & Ohio Railroad for the month of September, 1875 and 1874:

	Receipts.	Expenses.
1874.....	\$158,302 12	\$191,804 69
1875.....	149,531 08	158,597 08
Decrease.....	\$5,381 07	\$33,217 61

The following were the earnings of the Ohio & Mississippi Railway, as officially reported, for four months, June to October 31, 1875:

(Less transfers formerly included).....	\$1,083,195 51
Less operating expenses.....	794,681 69
Surplus.....	\$388,514 02

The earnings and expenses of the Michigan Central Railroad for September, 1875, were as follows:

Gross earnings.....	\$680,513 72
Expenses.....	342,537 02
Net.....	\$337,976 70

The following is an official statement of the earnings and expenses of the Union Pacific Railroad for the month of September:

	Gross Earnings.	Expenses.	Net Earnings.
1875.....	\$1,155,944 36	\$417,810 96	\$738,133 40
1874.....	1,083,993 05	393,180 15	670,812 90
Increase.....	\$91,951 31	\$24,630 81	\$67,320 50

Earnings of the Southern Pacific Railroad of California for October were \$184,600 gold.

THE REVOLT IN MALACCA AND THE TIN MARKET.

During the week several telegrams have been received from London to the effect that the Malay population of the Straits Settlements have risen in revolt against the British Government.

The Peninsula of Malacca forms the southern terminus of the continent of Asia, with which an isthmus connects it at the north-while toward the east it is surrounded by the China Sea, and toward the west by the Indian Ocean. The British possess three settlements on it, Malacca, the largest, formerly belonging to the Dutch, Penang and Singapore. There are furthermore several semi independent principalities near, the sovereigns of which are maintained by British residents, attended by troops. Perak is the largest and most influential principality, and there the trouble originated by the murder of Mr. Birch, the Minister Resident. The assassination took place, it would seem, with the knowledge and consent of all the remaining rajahs or princes.

Fortunately, the apprehension of war with China was the cause of a concentration of troops at Hong Kong, and these have been telegraphed for, to join the insufficient forces on the spot; the cable tells us that a religious war is feared. The census of British India was published a month or two ago; according to it there is a population of 238,830,958 souls, 40,750,000 being Mahometans, and but 250,000 European Christians. Of all the subjects enumerated above, the Mahometans are the least loyal, and the people now in revolt belong to that religion.

The Peninsula of Malacca is one of the most fertile regions of the East. Its shipments are principally from Singapore and Penang, the most important being tin, of which this year up to the middle of Sept. there were exported to England, the United States and other countries, 7,133 tons. The total production of tin in all countries during the past three years has been as follows:

	1874.	1873.	1872.
United Kingdom.....	10,000	9,970	9,560
Dutch East Indies.....	7,206	7,835	6,149
Malacca.....	7,149	6,563	9,785
Australia.....	7,012	4,100	150
Total.....	31,367	28,468	25,644

This year, while Australia was expected to show a decrease of production because of the protracted drought, Malacca, it will be seen, is thus far ahead of last year. The stock in Europe January 1, 1875, was large—8,277 tons, and in this country 600, together 8,877 tons—but the deliveries have been on an unusually liberal scale, the world's consumption this year being estimated at 34,200 tons, against 28,500 in 1874, 26,000 in 1873, and 27,000 in 1872.

Under these circumstances tin, which two years ago was £140 per ton, declined to £77 this summer; but from that point it gradually recovered in value, until about a month ago touching £38; afterwards it again receded to £34, from which figure it is now once more advancing rapidly at London, in response to the events going on in Malacca.

We are non-producers of the metal, but large consumers, and a rise of note would influence the value of tin plates, which we use in large quantities. The events occurring in Malacca, therefore—one of the principal tin-producing countries—are of direct interest to consumers here, and this interest would be very considerably increased should these troubles bring about a protracted diminished supply.

[From our own correspondent.]

LONDON, Saturday, Oct. 30, 1875.

A complete change has come over the money market during the week, and all apprehensions regarding a further advance in the official *minimum* have disappeared. The demand for gold on account of the German Mint has perceptibly abated; indeed, there is now scarcely any inquiry on that account, while for other quarters very few transactions have been recorded. It is well known that the recent upward movement in the value of money was inaugurated and fostered by exports of gold to Germany and South America, but now that these have fallen off considerably, the money market has lost its firmness, and the outside rates of discount are much below those current at the Bank of England. There has, however, been no belief in the maintenance of even a four per cent. rate of discount. It was probable, if not certain, that if the demand for gold for Germany continued the Bank rate would have been raised to five or even six per cent., but as soon as the German Mint had procured the supplies it required, it was clear that our money market would relapse into a very stagnant condition, as no support would be given to it by the mercantile community. The cessation of the German and South American demand for gold, and the absence of a commercial inquiry for money, have this week caused the rates of discount to decline rapidly, and, in the open market, the best bills are now taken at one per cent. under the official *minimum*, or at three per cent. Unless there should be a revival of the export inquiry for gold, the question of a reduction in the Bank rate will be discussed, as it will be impossible for the Bank of England to procure much business when it is underbid to so important an extent by the open market. The autumnal demand for money this year has not appeared in anything like its usual strength. Usually, we have a strong inquiry during the month of October; but this year, owing to the extreme quietness of trade, and to the absence of financial enterprise, the demand has been much below the average, and hence the rates of discount fall away as soon as the export movement in gold ceases. In fact, since the peace of 1871, our money market has been influenced almost entirely, if not quite, by the demand for gold, for had it not been for this, we should have had a long period of very cheap money. The numerous brief panics we have

The trade for wheat has been quiet during the week. The arrivals of foreign grain have been liberal, and this circumstance has induced millers to operate with caution. Holders of the better qualities of produce have endeavored to obtain better terms, but have not succeeded, and they are not likely to obtain higher prices until our stocks in granary have been considerably reduced. On the Continent, during the week, the trade has been quiet, but in Germany choice descriptions of wheat have attracted attention, and have been disposed of at full prices for the British markets. The demand at the German ports on the Baltic is now rather more active, as the navigation will be soon closed, when the trade will be very much impeded until the spring comes round again. Sound barley and oats attract attention, not only in this country, but also on the Continent, and they are advancing in price.

The following figures show the imports and exports of cereal produce into and from the United Kingdom since harvest, viz., from Sept. 1 to the close of last week, compared with the corresponding periods in the three previous years:

	1875.	1874.	1873.	1872.
Wheat.....cwt.	11,210,551	7,334,745	6,509,877	9,104,902
Barley.....cwt.	1,854,537	2,977,297	1,456,799	2,901,677
Oats.....cwt.	1,644,333	1,411,634	1,317,969	1,347,887
Peas.....cwt.	85,133	97,806	145,449	232,463
Beans.....cwt.	576,787	395,084	529,017	427,161
Indian Corn.....cwt.	3,956,162	2,235,534	3,735,178	4,656,018
Flour.....cwt.	878,068	788,235	906,903	897,326
Wheat.....cwt.	60,167	71,871	888,568	68,086

Oats.....cwt.	36,881	16,394	6,969	4,043
Peas.....cwt.	1,419	4,077	1,368	680
Beans.....cwt.	2,979	114	245	392
Indian Corn.....cwt.	7,447	29,981	41,054	3,006
Flour.....cwt.	2,708	14,703	34,429	3,367

The sales of English wheat, during the week ending October 23, amounted in the 150 principal markets of England to 54,330 quarters, against 56,945 quarters in the corresponding week of last year. The average price realized was 46s. 8d., against 44s. 1d. per quarter. Since the commencement of September they amounted to 396,104 quarters, against 523,236 quarters, the average price obtained being 47s. 3d. against 46s. 1d. per quarter in 1874. In the whole Kingdom, it is computed that the sales of home-grown wheat since harvest have been 1,584,420 quarters, against 2,113,000 quarters last year, showing a decrease of 528,580 quarters. Annexed is an estimate of the quantities of grain placed upon the British markets since the commencement of September:

	1875.	1874.	1873.	1872.
Imports of wheat since harvest.....	11,210,551	7,334,745	6,509,877	9,104,902
Imports of flour since harvest.....	878,068	788,235	906,903	897,326
Sales of Eng. produce since harvest.....	7,129,870	9,508,250	8,960,130	3,333,450
Total.....	19,218,489	17,631,230	16,376,915	19,335,578
Deduct exports of wheat and flour.....	64,875	36,574	922,997	71,358
Result.....	19,153,614	17,594,656	15,453,918	19,264,220

The public sales of Colonial wool will be commenced on the 23d of November. The arrivals amount to 74,178 bales, of which 35,957 bales consist of Cape produce. A moderate business has of late been doing by private contract, low-priced Australian scoured sorts chiefly attracting attention, on Continental account.

The Lord Mayor's banquet will be held as usual on the 9th of November, on the occasion of the entrance upon his duties of the new Mayor. I should not call attention to this circumstance had not Alderman Cotton, the new Lord Mayor, decided not to invite

the representatives of Honduras, Paraguay, and Costa Rica, in consequence of the revelations disclosed respecting the manipulation of the loans for those countries before the recent Parliamentary inquiry.

Bolckow, Vaughan & Co. (limited), the most successful and most extensive iron-producing firm in the North, employing nearly 10,000 men at their collieries, mines and ironworks, have resolved to intimate to-day to the whole of the men employed at Middlesbrough, Witton Park, and Eston Ironworks, that in consequence of great depression of trade all engagements will terminate on the 13th November. The firm owns about a dozen collieries and works its own ironstone, and the decision augurs ill for the future prospects of trade. Great distress already prevails in the North by the stoppage of less prosperous works.

English Market Reports—Per Cable.

The daily closing quotations in the markets of London and Liverpool for the past week have been reported by cable, as shown in the following summary:

Commercial and Miscellaneous News.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show a decrease in both dry goods and general merchandise. The total imports amount to \$3,310,520 this week, against \$5,130,887 last week, and \$3,876,055 the previous week. The exports are \$5,815,233 this week, against \$5,893,917 last week and \$3,983,536 the previous week. The exports of cotton the past week were 21,023 bales, against 17,608 bales last week. The following are the imports at New York for week ending (for dry goods) Nov. 4, and for the week ending (for general merchandise) Nov. 5:

	1875.	1874.	1873.	1872.
Dry goods.....	\$1,734,488	\$1,009,225	\$1,365,390	\$1,023,608
General merchandise.....	4,738,137	4,013,549	6,408,628	3,287,912
Total for the week.....	\$6,472,625	\$5,022,774	\$7,774,018	\$4,311,520
Previously reported.....	370,066,711	238,466,015	332,185,779	282,848,541

Since Jan. 1..... \$376,574,236 \$343,488,769 \$339,956,807 \$286,150,061

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports, for the week ending November 9:

	1875.	1874.	1873.	1872.
For the week.....	\$5,227,617	\$7,389,773	\$5,161,941	\$5,815,233
Previously reported.....	194,540,084	250,859,474	245,631,598	212,062,359
Since Jan. 1.....	\$199,767,701	\$257,569,217	\$250,792,839	\$217,877,593

The following will show the exports of specie from the port of New York for the week ending Nov. 6, 1875, and since the beginning of the year, with a comparison for the corresponding date in previous years:

Nov. 4—Str. Wieland.....	Hamburg.....	Silver bars.....	\$382,810

Reading Coal Company.—A press dispatch from Philadelphia, Nov. 11, says: The joint committee to investigate the affairs of the Philadelphia & Reading Railroad Company, and the Philadelphia & Reading Coal and Iron Company, held a final meeting to-day, and agreed upon the character of a report to be submitted to the Legislature. There was a general unanimity of opinion among the committee. It is understood that the committee holds that the constitutionality of the act incorporating the Philadelphia & Reading Coal and Iron Company is only for the decision of the courts, and not for the committee of the Legislature; and they recommend that the evidence taken in the case be submitted to the Attorney-General for his examination. The committee condemns the policy by which such charters have been granted by the Legislature, but think that, as all other companies carrying anthracite coal had these great powers granted to them, there was no good reason why they should be withheld from the Reading; and they express the hope that a different and more prudent course will be pursued hereafter in this matter. Concerning the charge of conspiracy to regulate the price of coal, the committee think that the combination has not been injurious to the public, and if it should become detrimental hereafter, the law can be resorted to to remedy it.

Rockford Rock Island & St. Louis.—Mr. H. Osterberg denies that the North Western Railroad Company has purchased this road and says he is determined to run the road in the interests of the German bondholders. He takes charge at once. George S. Skinner will act as General Manager.

Pennsylvania Company.—The Pittsburgh Commercial says: The Pennsylvania Company, which is not the Pennsylvania Railroad Company proper, but a separate, though auxiliary corporation, lessor of the roads belonging to the Pennsylvania Railroad system west of Pittsburgh, is putting a 6 per cent loan upon the market for the purpose of paying off the entire floating debt and all the equipment and construction charges for the year 1875.

—The Direct United States Cable Company, Limited, is now prepared to receive messages for transmission to any part of Europe. By an arrangement with the Southern & Atlantic Telegraph Company, messages are received at any of the Southern offices of that company for Europe, at the uniform price of ninety cents, gold, per word, a reduction of fifteen cents over previous rates; the Cable Company also have direct business relations with the Atlantic & Pacific and the Franklin Telegraph companies, at whose offices any information can be obtained.

—“Something new in Insurance,” is advertised by the National Burglary Insurance Company, of 115 Broadway. This company, in addition to insuring property of every kind against loss, will employ a special guard or patrol, also a detective force under an experienced chief to guard dwellings placed under their care and, to further secure property, will offer a large reward for the return of property stolen. Further particulars may be had by reference to an advertisement in the CHRONICLE next week.

—Messrs. Richardson, Hill & Co., of Boston, who are offering for sale the thirty-year water loan bonds of that city, have issued in their circular an interesting statement of the amount and particular class of each issue of governments embraced in all the calls that have yet been made of the five-twenties, together with the date of each call.

BANKING AND FINANCIAL.

THE DIRECT UNITED STATES CABLE COMPANY, LIMITED.

This Company's Cable is open for business.

Tariff from New York, 75 cents, gold, per word.

Messages will also be received at any of the Atlantic & Pacific, Franklin, and Southern & Atlantic Telegraph companies' offices throughout the United States, where further particulars as to tariff can be obtained.

NATIONAL BANKS ORGANIZED.

The United States Comptroller of the Currency furnishes the following statement of National Banks organized the past week:

2,308—First National Bank of Lehigh, Pennsylvania. Authorized capital, \$50,000; Paid-in capital, \$30,000. Daniel Olewine, President; W. W. Bowman, Cashier. Authorized to commence business, Nov. 3, 1875.

DIVIDENDS.

The following Dividends have recently been announced:

COMPANY.	PER CENT.	WHEN PAID.	BOOKS CLOSED.
			(Days inclusive.)
Railroads.			
Cleveland & Pittsburgh, guar. (quar.)	1½	Dec. 1	Nov. 11 to Dec. 1
Pennsylvania (quar.)	2	Nov. 30	Nov. 1 to Nov. 30

FRIDAY, NOVEMBER 12, 1875—6 P. M.

The Money Market and Financial Situation.—There have been no particularly noteworthy features during the past week; money has been in good supply at the former rates, Government bonds well maintained, speculative stocks moderately active and steady, gold showing a declining tendency, and foreign exchange stronger on a fair business.

At the better prices which are now ruling on call loans there has been an abundance of money offering, and the supply in the banks has apparently been increasing rather than falling off. On call loans the range is about 3@5 per cent. for the bulk of transactions, and strictly on government collaterals we have heard of money being offered for the balance of the year at the lower rate above named. Prime commercial paper keeps in good demand at 6@7 per cent. for the best grades, while paper of a lower class ranges all the way up to 10 and 12 per cent.

On Thursday the Bank of England report showed a decline of £352,000 in bullion for the week, the reserve being 42½ per cent. of its liabilities, against 39½ per cent. last week. No change was made in the minimum discount rate, which remains at 4 per cent. The Bank of France lost 3,518,000 francs in specie during the week.

The last weekly statement of the New York City Clearing House Banks, issued Nov. 6, showed an increase of \$ 969,950, in the excess above their 25 per cent. legal reserve, the whole of such excess being \$9,077,200, against \$8,107,250 the previous week.

The following table shows the changes from the previous week and a comparison with 1874 and 1873:

	Oct. 30.	Nov. 6.	Differences.	1874.	1873.
Loans and dis.	\$275,914,905	\$276,575,800	Inc. \$660,895	\$285,096,700	No statement.
Specie	9,240,900	13,343,500	Inc. 3,344,600	12,514,800	
Overdrawn	17,997,700	18,039,406	Inc. 41,700	25,083,900	
Net deposits	221,076,300	221,931,200	Inc. 855,000	226,753,900	
Legal tenders	53,435,400	51,314,500	Dec. 2,140,900	59,451,700	

In regard to taxing bank capital the *Evening Post* article today has the following:

"The Tax Commissioners of New York have had under consideration for several weeks a proposition to tax the surplus of banks as capital. Several conferences have taken place between the commissioners and a special committee of bank officers. No decision by the commissioners has yet been announced. They claim that it is their duty, in assessing each holder of bank shares, to make the assessment not on the par value of the stock, as has been the custom for years past, but on the value of the shares as determined by the report of surplus fund account as shown by last sworn statement of the bank. In support of this claim they cite a decision of the Supreme Court of this State in a case between one of the Albany banks and the tax assessors of that city. The banks, on the other hand, claim that under a fair construction of the statute only the par value of the stock can be assessed, as has been the case for years. In behalf of the banks it is urged that if the commissioners decide to tax surplus, and the courts sustain them, the effect will be to weaken the best banks in the city by inducing them to divide up their surplus among the stockholders as far as they can legally. The State banks can divide all their surplus, and thus evade such assessment; the national banks by law must accumulate and hold a surplus of 20 per cent of capital. Of course only the best managed banks have accumulated a large surplus, the amount of it being the measure of the good management. A surplus is simply a guaranty fund, and is a protection, not only of the interests of the depositors, but indirectly of the entire community. The national, State, and municipal taxation on banks now amounts to nearly 6 per cent of their capital. On the other hand, it is urged in favor of taxing surplus that the banks instead of dividing it up will turn it into capital, and if they do not, and the banking capital remaining is found to be inadequate, other capital will be put into the banking business."

United States Bonds.—Governments have shown decided strength in maintaining their prices, and even gaining ½ to 1 per cent in the face of a declining tendency in gold. Currency notes have also been strong, and close about ½ per cent higher. There has been no feature of special importance, and the purchases have been distributed among buyers of moderate amounts and corporations, which take round lots of more importance.

Closing prices daily have been as follows:

State and Railroad Bonds.—There have been a good many sales of Tennessee bonds at the Board this week, and prices, after some fluctuations, close at 46 for the new bonds and 47 for the old. District of Columbia bonds have again advanced to 71½, on the opinion of the Attorney-General of New York State that savings banks may be justified in investing their funds in these bonds as United States securities. This reverses the previous decision of the Deputy Attorney-General, and it appears now that those who deal in these bonds should have purchased on the Deputy's opinion and should sell on the principal's opinion.

Railroad bonds have been quite active, and during the past two days have advanced sharply on some of the Pacific issues, in consequence of a change in feeling as to the probable decision of the United States Supreme Court in the pending suit. The remark in our last report, that the present action was one by the Union Pacific Company against the Government to compel the payment of earnings accrued on its transportation and withheld as an offset to interest paid by the Government on its bonds, has met with some criticism. We believe, however, that it is substantially correct, and there is no "cross action" by the Government against the company except that pending in Massachusetts for the recovery of 5 per cent. of the net earnings since the completion of the road. In the latter suit the point at issue is quite distinct from the other, as the main question in dispute is in regard to the time when the road was "completed" according to the intent of the law.

The following securities, seldom offered at public sale, were disposed of this week at auction:

- 15 shares Third Avenue Railroad Co., \$100 each—132½.
- 15 shares Sixth Avenue Railroad Co., \$100 each, and \$1,300 Sixth Avenue Railroad Co. reg. 7, \$3,300.
- \$500 United States Life Insurance Co. scrip, 85.
- 39 shares United States Life Insurance Co., \$50 each—154.
- 78 shares Morris Canal & Banking Co. preferred stock, \$100 each—137.
- \$741 Morris Canal & Banking Co. 7 per cent scrip certificate of dividends on preferred stock, due 1889, interest February and August—93.
- 58 shares United States Trust Co., \$100 each—174.
- \$20,000 Union Canal Co. first mortgage 7 per cent bonds, due 1887, guaranteed by Delaware & Hudson Canal Co.—104½.
- \$6,000 International Railroad Co. of Texas first mortgage sinking fund 7 per cent gold bonds, \$1,000 each—55.
- 2 shares Brooklyn Academy of Music, \$50 each—40.

Daily closing prices of a few leading bonds, and the range since January 1, have been as follows:

* This is the price bid; no sale was made at the Board.

Railroad and Miscellaneous Stocks.—The stock market has been moderately active and prices, upon the whole, pretty firm. There has hardly been a point of new information affecting the values of stocks except, perhaps, the surrender of the lease of the Pacific Railroad of Missouri to its stockholders, by the Atlantic & Pacific, the lessee. On this, assisted by purchases to cover short sales, the stock advanced to 15½ on Thursday, but subsequently fell off and closed at 13½ to-day. The most striking advance of the week has been in Union Pacific, which sold up to

74 on Thursday and closes to-day at near the same price. The movements in this stock are not easily accounted for except upon the supposition that it is controlled by a very few parties, and this is the generally received idea in the "street." Ohio and Mississippi stock has been firm on a reported increase in earnings, though no figures for October alone have been published. The Northwest and St. Paul stocks have been rather firmer on a fair amount of business. Western Union, Lake Shore and Pacific Mail have been heavily dealt in, as usual, the first-named being rather weak to-day, though closing stronger at 75½, after selling at 75½. The tone at the close was generally strong.

Total transactions of the week in leading stocks were as follows:

	Pacific	Lake	West'n	Chic. &	Ohio	Pacific	Union
Nov. 6	33,300	31,500	16,200	8,900	4,900	900	2,300
" 8	10,900	49,200	8,200	14,100	2,300	2,600	800
" 9	14,900	45,400	15,700	7,400	3,900	2,500	11,200
" 10	10,600	26,600	8,200	2,900	5,900	13,600	10,400
" 11	28,100	21,300	11,900	5,800	2,600	15,800	10,700
" 12	43,500	29,300	46,400	2,500	7,400	5,700	8,400

Total... 141,300 205,100 106,600 44,600 27,500 43,400 46,900 40,500
Wholestock... 300,000 494,665 337,856 149,930 780,000 300,000 67,824 367,450

A comparison with the last line in the preceding table shows at a glance what proportion of the whole stock has been turned over in the week.

The daily highest and lowest prices have been as follows:

	Saturday	Monday	Tuesday	Wednesday	Thursday	Friday

The Gold Market.—Gold has shown a weaker tone and touched 114½ as the lowest point, recovering to 114½ at the close. The general feeling seems to be that the gold market is likely to be free from manipulation for a time, and some parties look for a further decline of more or less importance. On gold loans a consideration has been paid for carrying, during most of the week, and to-day the terms were 1, 2, 3, and 2½ per cent for carrying, and flat. Time loans of gold have been quoted as follows: 30 days, 1½; 60 days, 7-16; 90 days, 1½; 120 days, 1½. At the Treasury sale of \$500,000 on Thursday the total bids amounted to \$2,410,000, and the whole amount was awarded to one party. Customs receipts of the week were \$1,664,000.

The following table will show the course of gold and operations of the Gold Exchange Bank each day of the past week:

	Open	Low	High	Closing	Total	—Balances.
	est.	est.	est.	est.	Clearings.	Gold. Currency.
Saturday, Nov. 6	115	114 1/2	115 1/2	115 1/2	\$36,468,000	\$1,767,706 \$1,767,121
Monday, " 8	115 1/2	114 1/2	115 1/2	114 1/2	30,825,000	1,098,400 1,263,071
Tuesday, " 9	114 1/2	114 1/2	115 1/2	114 1/2	48,911,000	1,197,544 1,459,072

Jan. 1, 1875, to date	118 1/2	111 1/2	117 1/2	114 1/2		

The following are the quotations in gold for foreign and American gold:

Sovereigns	\$1 35	@ \$1 50
Napoleons	3 85	@ 3 98
X X Reichmarks	4 70	@ 4 80
X guilders	1 85	@ 1 95
Fine silver bars	1 23	@ 1 23 1/2
The gold bars	par	@ 1 23 1/2
Dimes and half dimes	— 87	@ — 90

Foreign Exchange.—Exchange has been stronger this week on a pretty fair volume of business. The market is now comparatively free from the depressing influences arising from the gold speculation, and prices are left to seek their proper level as governed by the demand and supply. Cotton shipments have been pretty free during the past month, and have furnished a good amount of commercial bills. To-day there was a rather easier feeling in 60 days' bills, but short sight was firm.

Quotations are as follows:

	60 days	3 days
Prime bankers' sterling	4.83 1/2 @ 4.83	4.87 1/2 @ 4.88
Good bankers' and prime com'l	4.81 1/2 @ 4.82 1/2	4.86 1/2 @ 4.87 1/2
Good commercial	4.79 1/2 @ 4.80 1/2	4.84 1/2 @ 4.85 1/2

ANNUAL REPORTS.

Boston & Albany.

(For the year ending September 30, 1875).

The directors of the Boston & Albany Railroad Company have filed their annual report, with the railroad commissioners of Massachusetts, for the late fiscal year. The report is simply statistical and not accompanied by any remarks as to the affairs of the company, but the figures are eloquent in showing a large falling off in earnings as compared with those of 1873-4. It will be seen that the gross income was \$7,949,667, against \$9,009,821 in the previous year.

Balance sheet as follows:

Dr.	
Cost of road and equipment.....	\$38,592,957 30
Cost of South Boston property.....	442,742 73
Cost of Hudson River bridges.....	475,485 00
Notes receivable.....	72,743 48
Material.....	1,409,075 32
Real estate and lands.....	119,673 96
Due from individuals and corporations.....	427,818 69
Trustees of Albany sinking fund.....	132,826 22
West Stockbridge railroad stock.....	13,000 00
Cash.....	521,396 66
Total.....	\$31,207,704 36

New York Providence & Boston.

(For the year ending August 31, 1875).

The President, Mr. S. D. Babcock, says in his report:

While the receipts for the present year, from all sources, are nearly \$21,000 in excess of the previous year, the actual earnings, independent of dividends from the steamboat company, interest account, and amount received from Fall River line, are \$20,000 less, viz.: for 1874, \$850,000; 1875, \$830,000. On the other hand, notwithstanding there has been charged to "repairs of road" \$35,000 more than last year, the running expenses have been decreased. So that the net earnings, as compared with last year, discarding in both cases all revenue from outside sources, is but \$16,000 less—a result much more favorable than could fairly have

been predicted. The net earnings, from all sources, are nearly \$25,000 in excess of last year.

On the first of April last, the Stonington Steamboat Company, in which this company had a controlling interest, was consolidated with the Providence & New York Steamship Company, under the name of the "Providence & Stonington Steamship Company," with a capital of \$1,400,000; and under authority granted by the Legislatures of Rhode Island and Connecticut, the interest of this corporation in the new company has been increased to \$800,000, by which it retains control of both the Stonington and Providence Steamboat Lines. It is believed that this investment will in itself prove a large and constantly increasing source of revenue, and what is of equal importance, will prevent the possibility of a ruinous competition by a first-class line of steamers running direct to Providence, in which this company would have no interest, and over which it could have no control.

Receipts were as follows:

Through Passage.....	\$235,411 46
Local passage.....	226,739 63
Total.....	\$462,171 09
Through freight.....	212,257 72

Ohio & Mississippi.

An abstract of the annual report was given some time since—the full report is just published, and the President remarks under date of Sept. 24, 1875:

"I regret to notice the continued severity with which the depressed state of general business has affected earnings.

"We have, however, obtained in net earnings, \$863,510 48, out of which the interest on the whole mortgage and bonded debt of the company has been paid, viz., \$770,273 29, as well as the purchases and redemption of bonds for the several sinking funds, amounting to \$75,198 75, and leaving a surplus of \$18,038 44.

"The net earnings of the half year, ended 31st Dec., 1874, were \$604,483 45, or considerably more than the total expenses and charges incidental to those six months, including coupon interest and preferred stock dividend. Consequently, we anticipated the payment of the preferred stock scrip dividend of 1st Dec., 1873, due 1st March, 1875, \$139,580, and in the belief that the remaining six months would yield the usual average result, we paid a further dividend on the preferred stock, 1st March, 1875, \$140,854.

"Unhappily, the severe winter, followed by the deplorable railroad competition for which no responsibility can attach to us, entirely frustrated these expectations and have augmented current liabilities and decreased floating assets, together, \$196,717 92.

"The financial position of the company has been maintained by moderate time loans, at interest in no case exceeding legal rates.

"I have now the pleasure to state that traffic has nearly returned to its normal condition, and provision for all ordinary engagements may be considered as certain.

"You have been already informed by circular—copy herewith—of the acquisition of the Springfield & Illinois Southeastern Railroad, now operated as the Springfield Division, and adding 223 miles of additional main track, and making a total of 700 miles in our O. & M. Railway system, including second track and sidings.

"The operations of this division, during the four months we have worked it, show net earnings \$22,771 04 during the dull season; business on it is rapidly growing and favors our original expectation that when interest on the bonds issued for the purchase of the road first falls due, 1st Nov., 1877, the surplus earnings of the division will fully meet that interest, while its importance as a feeder to the main line is daily becoming more evident."

Indianapolis Cincinnati & Lafayette.

(For the year ending June 30, 1875).

For a part of the year the company worked the Cincinnati & Martinsville road, from Martinsville, Ind., to Fairland, 89 miles, and the Whitewater Valley road, from Valley Junction, Ind., to Hagerstown, 70 miles, but the accounts of these roads are not included.

At the close of the last fiscal year, June 30, 1875, the property was represented as follows:

Capital stock	\$5,635,497 50
Cincinnati & Indiana stock, \$500,000, less \$481,500, owned by I. C. & L. Company.	18,200 00
Total stock (\$31.785 per mile)	\$5,653,697 50
Funded debt (\$59,588 per mile)	10,660,905 79
Total (\$91,143 per mile)	\$16,314,603 29

Of the funded debt outstanding, \$1,439,200 were funded-debt bonds issued for advances made by stockholders when the company was re organized in 1873. Interest on these bonds was to begin July 1, 1875, but concerning them the report says: "Finding in April last that the earnings of the road were not increasing so fast as was expected in 1873, when the funded-debt bonds were issued to the stockholders in settlement of their advances, and that the interest due Jan. 1, 1876, could not be paid, your directors thought it best to have an agreement prepared for changing the same into preferred stock. It is vital to the interests of all, whether stockholders or owners of funded-debt bonds, that this agreement should be signed by all before Oct. 15 next. It is evident that the road cannot earn \$100,000 in addition to last year, and unless the bonds are changed there will be a default. Your directors have signed for their bonds and are using every exertion to induce all to come in. When this is done, we can take steps to provide for the million of Cincinnati & Indiana bonds due Jan. 1, 1877."

Bills payable and call loans amount to \$503,339 24; accrued interest, \$113,967 50; accounts due and personal claims, \$213,613 63, making a floating debt of \$830,920 37. The supplies on hand are valued at \$90,566 42. The construction account has been increased by \$9,249, mainly for excess of cost of steel over iron rails and for new sidings. The equipment account has been increased by the cost of a new locomotive.

The equipment consists of 17 passenger and 40 freight engines; 4 parlor, 35 passenger, 3 smoking, 2 postal and 11 baggage cars; 727 box, 49 stock, 66 coal, 289 flat and 25 caboose cars; 2 tool and 2 camp cars. The equipment has been maintained in good order and improved.

The mileage of locomotives during the year was: Passenger, 490,630 miles; freight, 502,332; switching, 295,385; construction, 45,638; total, 1,334,035 miles, at an average cost of 19.5 cents per mile. The work done was as follows:

	1874-75.	1873-74.	Inc. or Dec.	P. c.
Passengers carried	616,934	565,100	Inc.	51,834 9.2
Passenger miles	34,085,103	20,569,640	Inc.	3,515,463 17.1

Av. receipt per ton per mile	cts. 1 656	cts. 1 77	Inc.	ct. 0 098 5.4

The earnings for the year were as follows:

	1874-5.	1873-4.	Inc. or Dec.	P. c.
From passengers	\$654,638 27	\$620,981 39	Inc.	\$33,646 98 5.4
Freight	982,952 83	1,110,602 46	Dec.	127,649 63 11.5
Ex'pr's, mail, rent, &c.	129,650 31	127,891 12	Inc.	1,759 19 1.4
Total earnings	\$1,767,231 41	\$1,859,474 87	Dec.	\$92,243 46 5.0
Working expenses	1,056,313 43	1,198,010 78	Dec.	141,696 35 11.8
Taxes	39,938 66	30,322 61	Inc.	9,616 05 31.7
Total expenses	\$1,096,251 09	\$1,228,333 39	Dec.	\$132,082 30 10.8
Net earnings	\$670,980 33	\$631,141 48	Inc.	\$39,838 84 6.3
Gross earnings per mile	9.73 80	10.388 13	Dec.	515 33 5.0
Net earnings per mile	3.743 49	3.525 93	Inc.	222 56 6.3
Percent of expenses	59.77	64.43	Dec.	4.66 7.2
Percent of expenses & taxes	62.03	66.06	Dec.	4.03 6.1

A summary of the profit and loss account is as follows:

Net earnings of the year	\$670,980 33
Debtor balance from previous year	\$9,500 51
Interest on floating debt	33,542 60
Bond interest and Cin. & Ind. dividend	650,099 50
	693,742 61
Debtor balance to next year	\$32,762 29

The actual deficiency for the year being \$13,261 78.

The reduction in expenses was owing to the fall in labor and materials, and also to the fact that most of the decrease in freight business was of low-rate freight. That decrease was largely in Continental Line freight, owing to the opening of the Chicago Division of the Baltimore & Ohio.

Improvements during the year include the rebuilding of six bridges and three water stations; 20 miles of new fence; 85,800 new ties; 3,648 feet of new sidings; 5½ miles new steel rails laid, making 27½ miles of steel now on the road; 24 miles of iron rails renewed. The report says:

"We have kept our rates good and maintained harmonious relations with all our competing lines, with but little exception, notwithstanding the demoralization in rates that has prevailed all around us.

"That our earnings have fallen off is due largely to the competition of the trunk lines, which by their extreme low rates of freight and passage have diverted business.

"In March last we commenced to operate the Cincinnati & Martinsville Railroad, under a verbal arrangement by which, so long as it continued, we should operate the road and pay over its net earnings to the Cincinnati & Martinsville Company, charging nothing for superintendence. This contract can be terminated at the pleasure of either company. So far it has worked satisfactorily.

"In March last we entered into a contract for operating the White Water Valley Railroad.

"The stockholders and bondholders of this company are in litigation, and this contract is liable to be terminated by such litigation. So far it has cost us nothing, neither have we received much profit."

GENERAL INVESTMENT NEWS.

Arkansas State Finances.—LITTLE ROCK, Ark., Nov. 11.—The State Senate to-day, with but one negative vote, passed an act authorizing the State Board of Finance to hypothecate the bonds of the State as security for money. An act was also passed increasing the rate of taxation to meet the principal and interest of any sum that may be borrowed.

Central Railroad of Iowa.—The decree of the United States Circuit Court of Iowa, foreclosing the Central Railroad of Iowa, at the suit of the Farmers' Loan and Trust Company, is reported to be in substance as follows: It decides that the first mortgage for \$3,700,000 is overdue, and, with interest, the plaintiffs, as representatives of the first mortgage bondholders, are entitled to \$4,623,334 99 in gold. The second mortgage bondholders are entitled to \$925,000, or, with interest, to \$1,136,246 86, and the third mortgage bondholders are entitled to \$420,000. It then directs a sale of the property at Marshalltown, Iowa, as one lot, on four weeks' notice. Under a provision in the first mortgage, designed to prevent a sacrifice, on foreclosure, of the property by forced sale, the Farmers' Loan and Trust Company are authorized to bid in the road at an amount not exceeding the principal and interest due on the first mortgage, and, if they purchase it, to organize a new company in conformity with the views of a majority of the first mortgage bondholders, and transfer the road to such new company. In that new company there is to be issued a second class of stock at par to the second mortgage bondholders, and common stock at par to the third mortgage bondholders and general creditors. The old stockholders are also to receive common stock at the rate of one share new for three old. Any of the deferred creditors are to be at liberty to redeem from the first mortgage bondholders within a year, and there is a provision in favor of laborers and men who have furnished material, protecting their preferences where they have them. The counsel for the trustees are Turner, Kirkland & McClure, of 120 Broadway.

District of Columbia Bonds.—The Washington Stock Exchange has decided that the 3-65 bonds shall hereafter be recognized and classed in all transactions of the Exchange as bonds of the United States. A short time ago, Deputy Attorney-General Fairchild, of New York State, gave a legal opinion that savings banks could not, under the law, invest in District of Columbia bonds. The Attorney-General of the United States has since given his opinion that the United States Government is responsible for the bonds, and now Attorney-General Pratt, of this State, gives his opinion reversing the former decision of his deputy, and concluding that savings banks may invest in these securities. As this opinion can hardly decide the question as a matter of law, it might be wisest for the savings banks to wait for definite action on the question by the New York Legislature.

Gilman Clinton & Springfield.—The Illinois Supreme Court has affirmed the decision of the McLean County Circuit Court in the Kelly suit, that the stock issued to the Morgan Improvement Company is illegal and must be canceled. The Court holds that, while this contract with the Morgan Improvement Company was not fraudulent in the first place, yet it was illegal for a director of the railroad company to become a member of the Improvement Company, and that the disposition of the stock was such as the directors could not rightfully make. The Court in its decree directed the Master in Chancery to give notice of an election of a new board of directors by the *bona fide* stockholders, excluding the stock owned by the Morgan Improvement Company. On the election of the new board of directors it will be the duty of the Court to discharge the Receiver, if it has not already done so, first requiring him to account to the new board for any funds that may be in his hands belonging to the company.

Houston (Texas) City Finances.—At a meeting of holders of bonds of the city of Houston, at the office of Mr. J. C. Chew, the following report was made and adopted:

The committee appointed at a meeting of the bondholders of the city of Houston, held at the office of Mr. J. C. Chew—for the purpose of approving the security of a 7 per cent. bond, agreed upon to be received by said bondholders in exchange for the 10 per cent. defaulted bond, providing adequate legislation should be secured—report that said arrangement has not been approved by the City Council of Houston, and that consequently their powers, being limited to the acceptance of and approval of a 7 per cent. bond, has ceased. They are confident from the expression of the holders at the meeting referred to, and from the present disposition of bondholders whom they have seen, that no lesser rate of interest will be received, and that only for a bond strongly secured by legislative action; and that delay in prosecuting the city through the channels of the law is only advisable from the impression that a change in the city government likely to take place at the ensuing election may result in the acceptance of the terms agreed upon at the bondholders' meeting, any abatement of which, on the part of the city of Houston, would be equivalent to attempted repudiation, as it cannot be justly claimed that a city of 25,000 inhabitants, and personal and real estate worth at least \$15,000,000 is insolvent and unable to pay 7 per cent. interest on a debt, the unsecured portion of which but little exceeds one million of dollars.

ALBERT H. NICOLAY,
JOHN J. VAN NOSTRAND, } Committee.
R. H. ARKENBERG,

Indianapolis Cincinnati & Lafayette.—The annual meeting of stockholders was held in Indianapolis, Nov. 1, and the following were elected directors: Geo. Bliss, Wm. A. Booth, and Chas. G. Lodes, of New York; T. H. Perkins and J. S. Fay, of Boston; Wm. T. Reynolds and W. Forbes, of Lafayette, and S. J. Broadwell and W. E. Ingalls, of Cincinnati. No change of officers was made. It was decided not to purchase the Martinsville branch, but the President is authorized to lease the road for a term of fifteen years, under the same arrangements now existing. The project of building the cut off at Lawrenceburg was considered favorably, and steps are to be taken to begin the work immediately. The piece of road will be one mile in length and save a circuitous route of six miles. Lawrenceburg is not to be set off in the cut, but the cut-off is to be used only for fast through trains. The time will be four hours from Cincinnati to Indianapolis.

—The *Railroad Gazette* says: It is stated that holders of nearly \$1,200,000 out of the \$1,439,300 funded-debt bonds have assented to the proposal, made in the annual report, to exchange them for preferred stock, and that it is probable that the assent of the rest will be obtained without difficulty. It is said that negotiations are on foot for a purchase or long lease of the Cincinnati & Martinsville road, now worked under a temporary agreement.

Jacksonville Pensacola & Mobile.—In the United States Supreme Court, Oct. 29, the case of the State of Florida against Anderson and others, appeal from the Circuit Court, was argued. The State holds \$3,000,000 first mortgage bonds on the Florida Atlantic & Gulf Central, the Pensacola & Georgia, and the Tallahassee railroads, which were consolidated as the Jacksonville Pensacola & Mobile. Those bonds are not due till 1891, and the plaintiff claims that a sale of the road under the defendants' liens, as ordered by the Circuit Court, will work injury to the rights of the State under its first mortgage. The defendants claim that the bonds held by the State were given in exchange for State bonds issued as subsidies, and that they are not a first lien on the property, their own bonds being in fact the first mortgage, and that the decree given in their favor by the Circuit Court is right. The case has been in litigation for several years, and some intricate legal questions are involved.

Kansas and Missouri Bridge.—St. Louis, Nov. 10.—The Kansas and Missouri bridge, which spans the Missouri river at Leavenworth, has been placed in the hands of a Receiver.

Kansas Pacific Consolidation.—The Central City (Col.) Register, of Oct. 11, had the following:

In accordance with an invitation extended to the public by the board of county commissioners, many tax payers of the county met with that body at their office on Saturday to confer with General Carr, president of the Kansas Pacific Railway, concerning the proposed consolidation of the Kansas Pacific, Arkansas Valley, Junction City & Ft. Kearney, Boulder Valley, Denver Pacific, and Colorado Central roads, as one, under one management.

General Carr was present with full reports of all the roads now controlled by him, which embrace all those proposed to be consolidated, save the Colorado Central. The length of the various lines now in operation are as follows:

Railroad.	No. of Miles.
Kansas Pacific.....	672
Arkansas Valley.....	75 1/2
Junction City and Fort Kearney.....	33
Boulder Valley.....	27
Denver Pacific.....	106
Colorado Central.....	82

Total.....966 1/2
The capital stock of the Kansas Pacific is \$10,000,000, of the Colorado Central, \$1,370,000. The other roads, having an aggregate length of 242 1/2 miles, have an aggregate capital stock of \$8,630,000.

The cost of the various roads is in round numbers:

Kansas Pacific.....	\$34,359,540
Arkansas Valley (\$18,000 per mile).....	1,377,000
Boulder Valley (\$20,000 per mile).....	540,000
J. C. & Ft. K. (\$15,000 per mile).....	495,000
Denver Pacific.....	2,544,000
Colorado Central.....	3,963,000
Total.....	\$43,315,540

The net outstanding indebtedness of the Kansas Pacific, Junction City and Fort Kearney, and Arkansas Valley roads, combined, is in round numbers \$16,000,000. That of the Boulder Valley and Denver Pacific we have not been able to learn, while that of the Colorado Central consists of—

Bonded debt.....	\$1,330,000
Floating debt.....	1,300,000

Total.....\$2,630,000
As stated by Mr. E. H. Rollins, acting secretary of the Colorado Central Company.

General Carr presented also monthly and annual statements from the books of the various companies other than the Colorado Central Railroad, showing that their incomes from passenger and freight traffic pay the running and current expenses of the several lines, the interest on their outstanding indebtedness, leaving a small annual balance to be used as a sinking fund.

The Colorado Central bonds draw eight per cent gold interest, or, at present rates of gold, over 9 1/3 per cent, or a total interest on the bonds of \$114,800. The floating debt is probably in the form of accounts stated, and if so, draws legal interest, or 10 per cent. This gives the interest as \$130,000, or a total annual interest payable by the company of \$244,800. To meet this, the president of the road is reported to have stated at the last meeting of the company, held in September, that the annual gross income of the Colorado Central road is \$300,000, and that 55 per cent of this is required to pay the current expenses of the road, leaving 45 per cent, or \$135,000, to be applied on the interest of the outstanding indebtedness. * * *

Gen. Carr stated his proposition to be that Gilpin county should surrender her stock in the Colorado Central Railroad, and receive a like amount in the stock of the consolidated company. In answer to inquiries on that point, a letter was produced by Mr. Carr from Jay Gould to A. J. Poppleton, attorney of the Union Pacific and of the holders of the floating indebtedness of the Colorado Central Railroad, asking him in what way it would be necessary for holders of this debt to close out the stockholders, in case the Colorado stockholders should refuse to join in the proposed consolidation. * * *

The excessive indebtedness of the Colorado Central road caused a good deal of astonishment.

When asked why he desired a consolidation, when the stock was so near valueless, and, according to the showing, so much worse than that of the other road, General Carr said that it was a part of the settlement of all quarrels between the Kansas Pacific

and the Union Pacific companies, and that on the completion of this settlement the Kansas Pacific would receive upwards of \$800,000 cash from the Union Pacific.

Missouri Pacific.—A dispatch from St. Louis, November 9, said: At a meeting yesterday of the directors of the Missouri Pacific Company, the Atlantic & Pacific Company surrendered the former road to the directors. A statement was made that the Atlantic & Pacific Company has expended for the latter road, in various improvements, over \$1,350,000, and for which the Missouri Pacific stands indebted. Of this sum Andrew Pierce individually indorsed for the sum of \$1,000,000. For this, and other reasons, Mr. Pierce was elected General Manager of the Missouri Pacific road. The other officers of the road remain unchanged. The Company's indebtedness to St. Louis County was considered, and action taken that will assure payment of all past due interest at an early date.

—An action has been commenced by holders of third mortgage bonds to the amount of \$350,000, to enforce their lien, for non-payment of interest.

New Jersey Midland.—Pursuant to the resolution passed at the bondholders' meeting, Oct. 21, the chairman has appointed the following committee of eight in addition to himself, viz.: Joseph N. Bailester, Brattleboro, Vt.; Grinnell Burt, Warwick, N. Y.; Charles H. Burtis, New York City; Smith Ely, Jr., New York City; John J. Brown, Paterson, N. J.; Wm. S. Santa, Hackensack, N. J.; S. E. Olmsted, Norwalk, Conn.; E. S. Francis, Pittsfield, Mass. The committee elected Mr. D. B. Halstead chairman.

New Jersey Southern.—A meeting of the first mortgage bondholders was held Tuesday to consider the subject of re-organizing that company and consolidating the railroads connected with the New Jersey Southern system, including the Vineland and the Smyrna & Delaware Bay roads. A plan of agreement between Jay Gould as creditor and the New Jersey Southern Company as debtor, was brought up, which provides that all first mortgage bonds held by subscribers, and certificates of 1,619 shares of stock in the Long Branch & Sea Shore Railroad, shall be deposited in some trust company. The trustees are authorized, when this shall have been done by Jay Gould and the holders of \$1,500,000 (par value) of the bonds, to buy in all the real and personal property of the New Jersey Southern Railroad Company, which may be sold under any decree entered in the suit, now pending in New Jersey, for the foreclosure of the first mortgage (provided the sale shall include not only the New Jersey Southern Railroad, but also the 1,619 shares of capital stock of the Long Branch and Sea Shore Railroad Company and the East End Hotel) at such price as they shall think proper, but not more than \$2,289,000, the title to be taken in the name of the trustees for the subscribers. In case a new company shall be organized without any consolidation with other railroads, then there shall be issued and delivered to the first mortgage bondholders \$2,280,000, with interest thereon from May 1, 1875—half in bonds and half in preferred stock of the new company; to Jay Gould, \$180,000, with interest thereon from May 1, 1875—half in bonds and half in preferred stock of the company; and to the second mortgage bondholders, who shall become parties to the agreement, amounts of the common stock of the company equal at par to the face value of the said second mortgage bonds held by each respectively, without interest.

The second agreement which was for consolidation, embraced the following:

1. The following roads are to be consolidated at the following valuations, to be represented in securities of the new company, as follows:

Railroads.	Valuation.	New funded to Bonds, May 1, '75.	Interest one year.	Total Registered Bonds.	Stock.
Long Br. & S. S., 1,619 shares. (East End Hotel).....	\$175,000	\$87,500	\$8,500	\$104,000	\$87,500
N. J. Southern, first mortgage. 2,240,000.....	1,140,000	80,000	1,280,000	1,140,000	
Vineland.....	700,000	350,000	24,500	374,500	350,000
Smyrna & Delaware Bay.....	224,000	146,350	10,250	156,600	146,350
Kent County.....	350,000	150,000	10,500	160,500	150,000
Total.....				\$2,015,500	\$1,573,700

The second mortgage bondholders of the New Jersey Southern Railroad are to exchange their bonds for common stock at par. The "Interest one year" in the foregoing table represents the coupons for November, 1876, and May, 1877, which are to be funded for the relief of the road.

2. The first mortgage bondholders are to buy in the New Jersey Southern Railroad—and Mr. Gould is to procure title to all the other roads—for transfer to the new company.

3. The purchase of the New Jersey Southern Railroad is to be made by Trustees appointed under the first agreement, and the re-organization and consolidation to be carried out by a committee appointed under the second agreement.

4. The bonded debt upon the consolidated roads is not to exceed the following amounts:

Issued in payment for roads, &c., as in No. 1.....	\$2,015,500
Reserved to provide for antecedent mortgages Long Branch & Sea Shore Railroad.....	\$300,000
Toms River Railroad.....	120,000
Pemberton & New York Railroad.....	375,000—695,000
Reserved in Treasury to be used in completing roads.....	789,500

Total bonds.....\$2,500,000
Preferred stock as stated in No. 1.....1,573,700
Common stock as stated in No. 1 not to exceed.....1,000,000

5. If first mortgage bondholders who did not become purchasers of the New Jersey Southern Railroad, then they are to pay Mr. Gould out of their share of profits of sale \$220,000 for the Long Branch & Sea Shore stock which he claims to own.

6. If Southern roads are not consolidated, then New Jersey Southern road is to be re-organized with Long Branch & Sea Shore Railroad on the basis of the same figures at which they are to be represented in the consolidation.

7. Agreement for consolidation to continue in force until May, 1877, with liberty to all parties to extend the time further if proper.

Mr. John G. Stevens, engineer, has made an examination of these roads and prepared a report at considerable length for the information of parties interested.

There was much excitement at the meeting, growing out of a resolution offered by T. S. Fernon, to the effect that the first mortgage bondholders disapprove the plan of re-organization

presented, or of any other plan in the creation of which Jay Gould shall have participated. This resolution was finally defeated, and the plans of re-organization and consolidation were adopted. In the first agreement, George N. Titus, Henry Day, Samuel W. Bates and John W. Sterling—the last named representing Mr. Gould—were appointed trustees to execute the provisions of the agreement, and in the second agreement, G. De F. Lord, William Walter Phelps, John W. Sterling and C. W. Huntington were appointed to execute the resolutions of the several parties in interest.

Pullman Palace Car Company.—At a meeting of the directors of this company, held at Chicago, Nov. 1, the following preamble and resolution were unanimously adopted, viz.:

Whereas, It appears by the financial statement of July 31, 1875, that during the present year \$377,000 of 8 per cent. bonds will mature; and that in 1878 \$588,000 of 7 per cent. bonds will mature; and

Whereas, The current surplus earnings are required to pay for construction of additional cars, rendered necessary by the increasing demands of the business of the company; and

Whereas, It is estimated that, by limiting the cash dividends to \$3 per share, quarterly, sufficient money will be reserved to retire and cancel the bonds at or before maturity; and

Whereas, In the opinion of this board, it is for the true interest of the company to pay its bonds by appropriating portion of its current revenue to that purpose, instead of providing for their redemption by the issue of new securities; it is, therefore,

Resolved, That a dividend of \$3 on each share from net earnings be declared payable on and after Nov. 15, 1875, to stockholders of record at close of business this day.

(Signed)

CHARLES W. ANGELL, Secretary.

The Boston Herald says: The financial statement above mentioned are enabled to present in full, and as no similar document has ever been permitted to come before the public it will be of special interest. It is for the fiscal year ending July 31, 1875:

INCOME ACCOUNT.

Revenue.	
Earnings.....	\$2,022,629 77
Our proportion of earnings of other sleeping car associations controlled and operated by this company.....	500,948 32
Patent royalties.....	\$2,523,578 09
Dividends on stock in Pullman Southern Car Company.....	11,134 13
Dividends on stock in Central Transportation Company.....	20,111 00
	8,833 73

	\$11,257,890 73

St. Joseph Bridge.—A meeting was held in St. Joseph, Mo., recently, to consider ways of raising the money—\$28,000, gold—needed to pay the coupons falling due Nov. 1. Gov. Hall stated that thus far the earnings of the bridge had not been enough to pay the interest on the bonds. Money had been borrowed, in some cases on the individual notes of the directors, and there was then a deficit of \$13,000 on this account. If the interest was not paid the bridge would be sold and the City's interest lost. The City Council could not legally do anything, and it rested with the citizens whether the money should be paid. The Kansas City St. Joseph & Council Bluffs Company would cease to run trains over the bridge, Nov. 9, having given up the lease of the St. Joseph & Topeka road. That company had declined to continue the use of the St. Joseph & Topeka road to Atchison, even free of all rental, because it had a line of its own on the other side of the all river, which was shorter. This action would cause a further decrease in the bridge receipts. If the interest was not paid, a receiver would be appointed at once, and the property sold as soon as legal notice could be given.

Union Pacific.—In the CHRONICLE of Nov. 6, we referred to the pending suit in the United States Supreme Court, as follows:

The present suit is, at most, only an action by the Union Pacific Company to recover from the Government the earnings from its transportation business withheld as an offset to the interest paid on the United States bonds issued to the company. The question of the obligation of the company to pay all the current interest due on these bonds is a collateral subject, and would not be finally determined in the present suit.

This statement was criticised by the New York World, as follows:

"Upon these questions of fact, the CHRONICLE is not so good an authority as the United States Court of Claims, which held the following language in its opinion pronounced May 31, 1875:

"The case comes before the Court in two distinct forms: First, in that of an action brought by the Union Pacific Railroad Company to recover one-half of certain freight earnings withheld from it by the Government; and second, in that of a cross action brought by the United States to recover back the interest which they have paid to third persons upon their bonds heretofore loaned to the company, to aid it in the construction of its roads."

Now, the real facts of the case appear to be that the Government suit for 5 per cent of net earnings since the completion of the road, is the suit referred to by the Court of Claims, as a cross action, "to recover back the interest which they have paid" on the bonds. But as the time of the technical completion of the road is in dispute, and as the weight of evidence places it in October, 1874, the amount involved in this suit is comparatively small. The general statement of the Court of Claims might give an erroneous impression to those not familiar with the actual points of the litigation pending, and the first statement of the CHRONICLE is substantially correct, for a judgment against the company in the present suits would certainly not enable the United States Government to issue an execution against the Union Pacific Railroad for all the interest that has been paid on its bonds since their issue in 1869, amounting to \$10,000,000 or upwards. It is acknowledged on all sides that the question of the obligation of the company to pay such interest before the bonds mature is collaterally involved in the present action.

The report of the Government Directors for the year ending June 30, 1875, is very favorable to the company. They give the following earnings and expenses:

EARNINGS.			
	Year ending June 30, 1874.	Year ending June 30, 1875.	Increase.
Passengers—			
Cash.....	\$3,541,633 57	\$4,149,648 40	\$608,014 83
Government.....	208,361 55	239,317 75	30,956 20
Mail.....	325,143 00	325,114 00	29 00
Express.....	366,192 98	433,340 77	67,147 79
Freight—			
Cash.....	4,933,664 61	5,142,863 94	209,199 33

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, Nov. 12, 1875.

Trade the past week has been very good in a jobbing way, as goods have been needed to supply the current wants of the country, but in other respects has been dull, and there is a notable absence of that speculative action, which indicates established views of the future of prices. Under such circumstances it is natural that complaints of mercantile inactivity should be heard. With brokers trade is dull, although, as we have said, merchandise is changing hands.

In provisions, prices have had pretty uniformly a downward tendency, although cost of production is still maintained at high figures. The "corner" in lard for October remains unadjusted, and has been a serious obstacle to legitimate business. Mess pork has materially declined on the spot; and last evening was quoted at \$20 50 seller the year, and \$20 for later deliveries. Lard has declined to 12½c. on the spot, 12½c. for Nov., and 12½c. for Dec., but closed at some recovery from these prices. Bacon has been lower and more active at 12½@13c. for long clear. Cut meats have favored buyers, but not to the same extent as other hog products. Beef has been in better supply and prices have developed weakness. Butter has been drooping, except for the finer sorts. Cheese has been dull, and some decline in prices has taken place. Today, pork was firm for mess, at \$22 50@22 75 on the spot, \$30 75 for the year, and sold freely at \$20@20 50 for Feb. Lard was flat; 12½c. spot and Nov., with the later deliveries dull. City long clear bacon sold at 13½c.; the new weather packed Western is not yet in condition to come upon the market.

Coffee has been depressed by unfavorable advices from Brazil, and prices show a partial decline. The stock of Rio at this point yesterday morning was 82,072 bags; at other United States ports, 97,189; afloat and loading for United States ports, 211,900, giving a total supply of 391,461 bags; fair to prime cargoes quoted at 18½@20c., gold; stocks also comprised 33,200 mats Java, 18,900 bags Maracaibo, and 5,981 bags and 9,454 mats other growths. Rice has been drooping for domestic, and the principal business has been in Rangoon, at \$3 55, gold, per 100 lbs., in bond. Molasses has been drooping, with sales of 50 test new crop Cuba muscovado at 31@32c., and choice new crop New Orleans at 76@78c.; stocks on hand, 3,517 hhds. and 800 bbls. Lard raisins sell well at an advance to \$2 90, Valencia at 10c., loose muscatels at \$3 15, currants at 7½c., Turkish prunes at 7½c. Teas and spices have been less active. Sugars have been active, and raws advanced ½c. to 8½c. for good refining, and stocks are now comparatively light, but the close was quiet, in view of the large crop of new from Louisiana which is soon to come forward. Refined unchanged.

	Hhds.	Boxes.	Bags.	Melado.
Receipts since Nov. 1.....	277	2,968	593
Sales since Nov. 1.....	15,572	4,087	1,313
Stock Nov. 11, 1875.....	45,716	21,783	173,078	7,906
Stock Nov. 12, 1875.....	69,072	70,393	141,400	52

Kentucky tobacco has ruled firmer and moderately active at 7@9½c. for lugs, and 12@20c. for leaf; the sales for the week embraced 600 hhds., of which 350 were for export, and 250 for consumption. Seed leaf has been in fair demand and about steady; sales embrace: Crop of 1870, 87 cases Connecticut, at 10c.; crop of 1873, 117 cases do., at 7@9c., 260 cases Ohio, at 8@8½c., 812 cases Wisconsin, at 6½@8c., 26 cases Pennsylvania, at 7c.; and crop of 1874, 340 cases Connecticut, at 7½@8c., and 37 cases Ohio, at 7c.; also 200 cases sundry kinds, at 7@35c. Spanish tobacco has been quiet but steady; the sales were 200 bales Havana at 88c.@\$1 10.

During the early part of the week rates for ocean berth room were lower, which led to a taking of all the offerings, so that at the close firmer figures were obtained, with a moderate business. Charter room remains about steady, with a daily moderate movement going on. Late engagements and charters include: Grain to Liverpool, by steam, 8d., cotton at ½d.; grain to London, by sail, 8½d., and flour at 2s. 6d.; Grain to Glasgow, by steam, 10d., and by sail 8½@9½d. Grain to Cork for orders 5s. 9d.; crude petroleum to Hamburg 4s. 3d.; naphtha to La Rochelle, 5s. 3d.; do. to Dunkirk, 4s. 10½d.; case oil to Cadiz or Seville, 23½c. To day, there was only a small business, but the limited supply of berth room held rates very firmly. Charters were quiet and unchanged. Cotton to Liverpool, 3s. 8d.; flour to Glasgow, by steam, 3s. 6d.; do., by sail, 3s.; grain to Cork for orders, 6s.; do., to a direct port in the Bristol channel, 5s. 9d.; refined petroleum, to a direct port in the United Kingdom, at 4s. 9d.

The business in naval stores has latterly been very quiet, and quotations have shown a gradual weakness, closing at 40½c. for spirits turpentine and \$1 80@1 90 for common to good strained rosin. In petroleum little or nothing of importance has transpired, and quotations are on a much lower level; refined in barrels closes at 12½c., and crude in bulk at 6½@6¾c. American pig iron has continued dull and irregular at \$24@25 for No. 1, and \$23@24 for No. 2; Scotch pig steadily held at \$32@33 for Coltness, and \$29 50@30 for Eglinton. In old American rails there was a sale of 2,000 tons, deliverable in Portland, at \$25; new quoted at \$45, currency, at the works. Ingot copper has latterly been active and firmer; sales of 300,000 lbs. Lake at 23½c., cash, and 800,000 lbs. for future delivery, up to April, at 23@23½c.

Linseed oil has ruled firmer, and in fair demand at 60@61c. Other oils are quiet and unchanged. Hides have been dull and lower; dry Montevideo sold at 21c., gold, and city slaughter ox at 9½c., currency. Mackerel are lower, with sales of shore at \$26 for No. 1, and \$15 for No. 2. Box herring have been active, with sales of 20,000 boxes at 24c. for No. 1, and 26@27c. for scaled, from vessel. Whiskey declined to \$1 16½.

COTTON.

FRIDAY, P. M., Nov. 13, 1875.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (November 12) the total receipts have reached 149,474 bales, against 175,244 bales last week, 170,645 bales the previous week, and 147,345 bales three weeks since, making the total receipts since the 1st of September, 1875, 1,065,218 bales, against 960,238 bales for the same period of 1874, showing an increase since Sept. 1, 1875, of 104,980 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

Receipts this week at—	1875.	1874.	1873.	1872.	1871.	1870.
New Orleans.....	33,884	39,812	33,193	28,077	30,614	36,672

Charleston.....	20,812	20,046	17,164	14,176	11,006	14,539
Port Royal, &c.....	862	1,300				
Savannah.....	27,406	28,589	33,077	24,302	21,639	27,556
Galveston.....	16,758	16,374	10,015	9,461	5,329	7,301
Indianola, &c.....	1,370	562	551			
Tennessee, &c.....	7,675	8,902	6,875	3,992	9,008	7,309
Florida.....	725	792	801	967	537	230
North Carolina.....	2,456	5,022	895	3,020	1,901	3,899
Norfolk.....	23,553	21,459	13,117	13,692	9,442	
City Point, &c.....	1,183	2,319	2,112	2,037	836	11,251
Total this week.....	149,474	159,345	124,611	110,610	101,494	122,183
Total since Sept. 1.....	1,065,218	960,238	725,430	887,588	666,608	722,433

The exports for the week ending this evening reach a total of 80,319 bales, of which 50,684 were to Great Britain, 15,809 to France, and 13,826 to rest of the Continent, while the stocks a made up this evening are now 526,447 bales. Below are the stocks and exports for the week, and also for the corresponding week of last season:

Week ending Nov. 12.	Exported to			Total this week.	Same week 1874.	Stock.	
	Great Britain.	France	Conti- nent.			1875.	1874.
New Orleans.....	10,337	8,431	1,475	20,243	23,388	142,183	116,677
Mobile.....	4,019	4,019	2,368	29,268	28,375
Charleston.....	6,490	4,187	5,265	15,972	25,763	59,061	44,138
Savannah.....	3,173	3,191	3,685	10,049	32,284	91,307	77,942
Galveston.....	5,698	5,698	2,146	70,913	55,037
New York.....	18,252	2,771	21,023	15,534	88,822	83,684
Other ports*.....	2,715	600	3,315	5,394	45,000	60,000
Total this week.....	50,684	15,809	13,826	80,319	106,776	526,447	465,843
Total since Sept. 1.....	260,370	63,358	103,935	427,663	390,939

* The exports this week under the head of "other ports" include from Baltimore 518 bales to Liverpool and 600 bales to Bremen; from Boston 397 bales to Liverpool; from Philadelphia 1,800 bales to Liverpool.

[Our telegram from New Orleans to-night shows that besides the above exports the amount of cotton on shipboard, and engaged for shipment at that port, is as follows: For Liverpool, 25,000 bales; for Havre, 25,000 bales; for Continent, 16,000 bales; for coastwise ports, 3,000 bales; total, 69,000 bales; which, if deducted from the stock, would leave 73,000 bales representing the quantity at the landing and in presses unsold or awaiting orders.]

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a decrease in the exports this week of 26,457 bales, while the stocks to-night are 60,604 bales more than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to Nov. 5, the latest mail dates:

PORTS.	RECEIPTS SINCE SEPT. 1.		EXPORTED SINCE SEPT. 1 TO—				Coast- wise Ports.	Stock.
	1875.	1874.	Great Britain	France	Other foreign	Total.		
N. Orleans.....	208,011	169,695	70,805	26,747	32,039	119,591	37,482	133,699
Mobile.....	76,583	62,328	12,743	1,181	428	14,352	37,977	25,187
Charleston.....	137,137	136,513	14,615	11,439	11,321	38,028	36,219	57,331
Savannah.....	180,338	194,630	15,869	6,417	29,778	52,064	50,985	83,967
Galveston.....	134,031	80,580	14,964	839	2,418	18,306	55,575	66,933

Norfolk.....	132,986	107,694	4,440	4,440	104,966	15,309
Other ports.....	9,251	8,076	15,345	3,416	18,761	17,500
Tot. this yr.....	915,744	209,686	47,549	90,109	347,344	346,499	487,781
Tot. last yr.....	800,994	245,246	9,757	29,160	284,163	324,923	446,500

* Under the head of Charleston is included Port Royal, &c.; under the head of Galveston is included Indianola, &c.; under the head of Norfolk is included City Point &c.

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

The market for cotton on the spot has ruled quiet the past week. There has been but a limited demand alike for export and consumption, and the speculative movement has also been quite unimportant. Quotations remained nominally unchanged at 13 5-16c. for Middling Uplands until yesterday, when they were advanced to 13 3/4c. No very active influences have been at work. Liverpool was until yesterday reported dull, and on Wednesday the quotation for Middling Uplands was reduced to 6 1/2d. Receipts at the ports, however, have been smaller than last week, and some days smaller even than the corresponding days of last year. A severe storm has also passed over a portion of the South, which is believed to have done more or less injury. On the other hand gold has declined, and there has not been the improvement in exchange which has heretofore compensated for the lower premium. To-day the market continued quiet and prices weak. For future delivery the week opened with a hardening tendency, predicated mainly on the reported bad weather at the South and the expectation of smaller receipts at the ports, and that this, with the clearance of large quantities of cotton on shipboard, would check the accumulation of stocks on hand. Some reaction was caused by the large receipts for Monday, but on the whole there had been established last evening an advance of 1/4@5-32c. Southern parties, consigning cotton to this market, have made an effort to protect themselves, by supporting prices, but at no time has the demand been active. There is a noticeable absence of speculative tone among operators. To day at the opening prices were steady, but weakness followed, and the close was 1-16c. lower for the early months, and 1/4c. lower for the later months. After Change sales were made at 13 7-32c. for Jan., 13 15-32c. for March, and 13 21-32c. for April. The total sales for forward delivery for the week are 126,700 bales, including — free on board. For immediate delivery the total sales foot up this week 7,552 bales, including 3,019 for export, 4,186 for consumption, 347 for speculation and — in transit. Of the above, 600 bales were to arrive. The following are the closing quotations:

Price Middling Uplands, Liver'p'l. 6 1/2d. 7 1/4d. 7 1/4d. 9 1/4d.

These figures indicate an increase in the cotton in sight to-night of 7,414 bales as compared with the same date of 1874, an increase of 233,711 bales as compared with the corresponding date of 1873, and an increase of 100,217 bales as compared with 1872.

AT THE INTERIOR PORTS the movement—that is the receipts and shipments for the week and stock to-night, and for the corresponding week of 1874—is set out in detail in the following statement:

	Week ending Nov. 13, 1875.			Week ending Nov. 13, 1874.		
	Receipts.	Shipments.	Stock.	Receipts.	Shipments.	Stock.
Angusta, Ga.....	8,136	5,815	21,377	10,758	9,700	14,382
Columbus, Ga.....	2,287	1,776	7,450	2,839	2,197	5,959
Macon, Ga.....	3,868	3,227	5,643	3,367	2,350	6,538
Montgomery, Ala.....	3,314	2,684	7,279	2,910	2,383	6,117
Selma, Ala.....	4,145	4,216	6,313	3,643	3,467	5,832
Memphis, Tenn.....	23,330	21,693	26,593	17,668	10,335	32,339
Nashville, Tenn.....	1,296	1,241	1,564	2,061	1,025	7,387
Total, old ports.....	46,376	40,052	76,224	43,149	31,277	79,164
Shreveport, La.....	2,462	2,500	5,528	3,621	3,013	8,559

Columbus, Miss.....	903	564	1,914	1,012	632	905
Eufaula, Ala.....	2,028	1,641	2,731	1,131	939	1,701
Atlanta, Ga.....	3,012	3,036	3,003	3,559	2,643	4,449
Charlotte, N. C.....	1,016	952	501	1,339	1,359	187
St. Louis, Mo.....	10,594	8,993	8,119	6,071	4,326	14,730
Cincinnati, O.....	6,233	5,593	4,135	1,588	1,217	5,558
Total, new ports.....	38,445	36,337	26,360	19,931	13,421	32,538
Total, all.....	74,821	66,389	102,584	63,080	44,698	111,702

The above totals show that the old interior stocks have increased during the week 6,324 bales, and are to-night 2,940 bales less than at the same period last year. The receipts have been 3,227 bales more than the same week last year.

BOMBAY SHIPMENTS—According to our cable despatch received to-day, there have been — bales shipped from Bombay to Great Britain the past week, and — bales to the Continent; while the receipts at Bombay during the same time have been — bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, Nov. 11 :

	Shipments since Jan. 1.			Receipts since Jan. 1.		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
1875.....	5,000	1,000	6,000	806,000	376,000	1,182,000
1874.....	3,000	2,000	5,000	637,000	303,000	940,000
1873.....	3,000	2,000	5,000	637,000	303,000	940,000

Our cable despatch to-night states that this week is the celebration of the Dewallee Festival, and as every day of the festival is observed as a close holiday, no report has been made up by our correspondents.

From the foregoing it would appear that, compared with last year, there is a decrease of — bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows an increase in shipments of 20,000 bales compared with the corresponding period of 1874.

WEATHER REPORTS BY TELEGRAPH.—There has been a considerable fall of rain in the greater portion of the Southern States the past week, which was succeeded by colder weather, but it does not appear that any very material damage was done other than that the storm interfered with picking. The frost was not a killing frost in many sections except those which had before been cut by frost. Our friends will find the substance of the Galveston crop report below.

Galveston, Texas.—We have had rain here on three days the past week, but the rest of the week was pleasant; the rainfall reached ninety-two hundredths of an inch. The thermometer has averaged 58, the highest being 69 and the lowest 50. The competition for labor is running up the rate of wages. One dollar per hundred is the general rate for picking, but in some sections more is now being paid. Our Exchange has just issued its crop report for November. The period covered is to Nov. 5. It states that the weather has been more favorable than last year; that there has been no killing frost anywhere in the State; that over one-half the crop is now picked and that picking will be completed on the average about Dec. 10; that the crop will average about 42 per cent larger than last year, and that the correspondents generally think the yield will be materially increased if frost is delayed two or three weeks longer.

Indianola, Texas.—There were three showery days the past week, the rainfall reaching one inch and fifty-nine hundredths. The days have been warm and the nights cold. Picking is making excellent progress. The thermometer has averaged 58, the highest being 72, and the lowest 47.

Corsicana, Texas.—It has rained here on three days, one day hard and two days showery; and on two days it was quite cold, but there has been no killing frost as yet. The rainfall was two inches and thirty-four hundredths, and the thermometer averaged 53, the highest being 74, and the lowest 33. There is a great demand here for cotton pickers, and a dollar and a quarter is the current price now paid.

New Orleans, Louisiana.—We have had four rainy days during the past week, the rainfall aggregating three and fifty hundredths inches. We had a frost also, but not a killing frost. The thermometer has averaged 59.

Shreveport, Louisiana.—There was rain here on Saturday, Monday and Tuesday last, and a frost on Thursday, which, however, did little damage. Cotton receipts average good. Rainfall for the week, one inch and nine hundredths. Average thermometer 51, highest 65 and lowest 37.

Vicksburg, Mississippi.—We had rain on three days of the week past and a rainfall of one and fifty-eight hundredths inches. We had a frost on one night, but not a killing frost. Average thermometer 51, highest 54 and lowest 48.

Columbus, Mississippi.—There were three rainy days here during the past week, the rainfall reaching one and fifty-nine hundredths inches. Average thermometer 55, highest 63 and lowest 48.

Little Rock, Arkansas.—We had four cloudy days the past week, but it afterwards cleared up, with a heavy frost. It is now clear and dry. Average thermometer 52; highest 65, and lowest 37. Rainfall for the week sixty hundredths of an inch.

Nashville, Tennessee.—There were five rainy days here the past week, the rainfall aggregating eighty-six hundredths of an inch. The thermometer has averaged 46, the highest being 52, and the lowest 39.

Memphis, Tennessee.—We had one rainy day, but the rest of the week was pleasant, the rainfall reaching fifty-nine hundredths of an inch. The crop is being sent to market freely. Average thermometer for the week 50, highest 54, and lowest 42.

Mobile, Alabama.—It rained here severely on two days the early part of the past week, and it was cloudy and threatening three days besides, the rainfall for the week reaching four and thirty-three hundredths inches. There was a frost during the week, but in this vicinity it was not a killing frost and no serious damage was done; the killing frost was confined to the northern part of the State. About two thirds of the crop is now picked and it is being marketed freely. The tributary rivers are higher. Average thermometer 56, highest 73 and lowest 43.

Montgomery, Alabama.—The first five days of the week were rainy, but the last two were clear and pleasant, the rainfall for the week aggregating three inches and forty-nine hundredths. We had a frost this week, but not a killing frost. The thermometer has averaged during the week 53, the highest being 66 and the lowest 39.

Selma, Alabama.—There were three rainy days the early part of the past week, the latter part being clear and pleasant. Total rainfall two inches and ninety-six hundredths, and average thermometer 54.

Madison, Florida.—There was a rainfall of one and sixty-five hundredths inches the past week, rain falling on two days, and on one night there was a frost, but not a killing frost. About all the crop in this vicinity has now been secured. The thermometer has averaged 54, the highest being 58 and the lowest 50.

Macon, Georgia.—Rain fell at this place on two days during the week. The thermometer averaged for the seven days 53, the extremes being 70 and 33. The good weather for the previous few weeks has somewhat improved the crop prospects, but we think the yield will be short in this section.

Atlanta, Georgia.—It rained here constantly on two days during the week, and it was misty one day, the rest of the week being cloudy. Total rainfall, two and seventy-three hundredths inches. Average thermometer 52; highest 68 and lowest 46.

Columbus, Georgia.—Rain fell here on three days of the past week to the extent of one inch and eighty-seven hundredths. The thermometer has averaged 52; the highest was 60 and the lowest 36.

Savannah, Georgia.—There were five rainy days here the past

week, the rainfall reaching eighty-three hundredths of an inch. Average thermometer, 58; highest 77 and lowest 46.

Augusta, Georgia.—The early part of the past week it rained heavily on three days, the latter part being clear and pleasant. Crop accounts are unchanged. Planters are sending cotton forward freely. Total rainfall for the week two and fifteen hundredths of an inch. Average thermometer 50, highest 71 and lowest 34.

Charleston, South Carolina.—The total rainfall for the week is one inch and eighty-three hundredths. Average thermometer 56, highest 74 and lowest 44. The rain this week was in the early part of the week. On last Friday night the thermometer suddenly fell from 70 to 53.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock Nov. 11. We give last year's figures (Nov. 13, 1874) for comparison.

	Nov. 11, '75		Nov. 13, '74	
	Feet.	Inch.	Feet.	Inch.
New Orleans...Below high-water mark.....	14	2	15	5
Memphis....Above low-water mark.....	5	2	2	5

Shreveport....Above low-water mark.....	5	7	6	0
Vicksburg....Above low-water mark.....	8	2	6	6

GUNNY BAGS, BAGGING, &c.—The market for bagging during the past week has been fairly active, and holders are firmer in their views. Sales are reported in the aggregate of 2,500 to 3,000 rolls, at 12@12½c, cash. The removal from the market of so large an amount reduces the stock to a limited quantity, and at the close the price is firm at 12½c, cash, with but small lots obtainable at that figure. Several of the mills have stopped, which reduces the supply, and should the demand continue prices will go higher. Bales India are 9½@9¾c, cash. Borneo, 12½@13c, in Boston. Bags are nominal at 13½c. Butts have ruled very firm with a good demand. Sales are reported of about 1,500 bales at 2½@2 15-16c, cash, and 3c. time. At the close holders are firm at 2 15-16@3c, cash and time. Stock about 2,000 bales here and 2,500 in Boston.

COTTON EXCHANGE CROP REPORT FOR NOVEMBER 1.—The last of August a new arrangement was made for issuing the Cotton Exchange crop reports. It seems that hereafter each exchange is to mail to the Central Committee at New Orleans, as near the 5th of each month as possible, a condensed report, and no "local Exchange is to publish its individual report until after the National Exchange Report" (made up from these "condensed reports") "shall have been telegraphed." The "National Report" for Nov. 1 is, we understand, to be issued to-night, and shows a very considerable improvement for the southwestern States on its predecessor of Oct. 1. We have heretofore sought to obtain by telegraph direct to ourselves the report of each Exchange and publish them at the earliest moment. Our arrangement in that respect is of course brought to an end by the present plan. We are sorry for the change, as we think the public were better served in the old way. Still the National organization is doing much good work, and we have no doubt the committees had what appeared to them the best of reasons for the present system. As it will, however, now be so late before we could obtain these individual reports, we shall content ourselves with giving hereafter a briefer summary of results.

INDIA COTTON CROP.—Our latest advices by mail from India, which are now brought down to October 4, appear to show some improvement. The latest dates we gave in our previous summary were September 16.

On September 23 (Bombay) Messrs. W. Nicol & Co. state that on the 20th inst. their Hingunghat correspondent writes: "No improvement has taken place in the weather since last report. 'We have had showers every day, and all the cotton lands are in a pasty state. In the Wurdah direction things look very gloomy indeed; all the low-lying cotton fields are choked with weeds, so that the plants are scarcely visible.' Messrs. Nicol & Co. add, however, that since the foregoing was written "they had a telegram stating that the sky was clearing up, and that prospects were more favorable. There has been rain all over the Berars, and from native sources we learn that some damage has been done, but we do not attach any importance to the reports. Accounts from Surat and Broach are somewhat conflicting, but the general impression seems to be that the condition of the plants has undergone a slight change for the worse. Latest reports from Kattiwar are favorable. From Kutch we have no news lately." And, on the 23 of October, the same authority states that the "latest accounts from Hingunghat are decidedly more cheerful, and with a continuance of the present favorable weather much if not all the reported damage will be made good. From Berar and Guzerat reports are also very favorable."

Sir Charles Forbes & Co., under date of Bombay, Oct. 4, state, that "the reports from the districts as to the forthcoming crops are generally satisfactory, except from Broach, Khandeish and some parts of the Nerbudda Valley, where excessive rains have caused more or less damage. The Broach crop is generally expected to fall short of that of last season. In the Southern Mahratta Country, where planting has made fair progress, rain is reported to be much wanted. From Bellary we learn that the western crop shows excellent promise."

Finlay, Muir & Co.'s latest date is Bombay, Sept. 23. At that time they wrote: "Rain has again fallen heavily throughout the Presidencies and in some districts considerable injury has been done. The Broach crop is expected to be later than in the last two seasons, but the quantity is not expected to be affected. News has just been received of serious damage to both the railway and the town bridges over the Sabarmuttee at Ahmedabad, and it is feared goods traffic by rail with Kattywar cannot be resumed till the dry season is well advanced. From Berar accounts continue very good, and a prosperous season is looked for by the

"ryots. In the Dharwar districts cotton sowing is well advanced, and more rain is now wanted."

Fleming & Co., October 1st, state that "the growing crops in the Punjab and upper Sind districts are again more favorably reported on, the effect of the late rain having proved most beneficial."

It will thus be seen by the foregoing, that with the close of September the prospect everywhere brightened. Still, it would appear probable that the shipments during 1876 from these ports could not equal the last two years, unless there proves to be increased planting, and we have seen no notice of that except in the Oomrawuttee district. Certainly the start has been much less favorable than was the case for either of the two previous seasons, when the whole planting and growing period appeared to be propitious.

LIVERPOOL, Nov. 12.—4 P.M.—By CABLE FROM LIVERPOOL.—The market has ruled steady to-day. Sales of the day were 10,000 bales, of which 2,000 bales were for export and speculation. Of to-day's sales 5,000 bales were American. The weekly movement is given as follows:

	Oct. 22.	Oct. 29.	Nov. 5.	Nov. 12.
Sales of the week.....bales.	57,000	61,000	58,000	61,000

Oct. shipment from Sav. or Chas., Low Mid. clause, by steamer, if required, 6 1/2 d.

Nov.-Dec. delivery from Sav. or Chas., Low Mid. clause, 6 1/2 d.

Nov.-Dec. delivery from New Orleans, Low Mid. clause, 6 1/2 d.

THE EXPORTS OF COTTON from New York, this week, show an increase, as compared with last week, the total reaching 21,023 bales, against 17,608 bales last week. Below we give our usual table showing the exports of cotton from New York, and their direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1875; and in the last column the total for the same period of the previous year.

Exports of Cotton (bales) from New York since Sept. 1, 1875

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 81,494 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week.

		Total bales.
New York—To Liverpool, per steamers Wisconsin, 2,914....	City of Berlin, 1,142....	Adriatic, 1,782....
Scythia, 715....	Erin, 1,371....	per ships Caravan, 2,036....
Prince Rudolph, 3,700....	Atmosphere, 3,693....	Livingstone, 996....
To Bremen, per steamer Oder, 1,371....		1,371
To Hamburg, per steamer Wieland, 1,000....		1,000
To Russia, per steamer Hindoo, 500....		500
New Orleans—To Liverpool, per steamers Diego, 6,559....	Oberon, 3,460....	Jamaican, 4,000....
per ship L. L. Sturges, 4,366....	per barks Fleetwing, 1,630....	Leamington, 3,110....
To Havre, per ships Transit, 3,808....	Vigilante, 3,044....	per bark Polymnie, 751....
To Genoa, per bark Tarragona, 1,475....		1,475
To Vera Cruz, per steamer City of Florida, 1,500....		1,500
MOBILE—To Grimsby, G. B., per bark Lorton Vale, 921....		921
To Havre, per schooner C. M. Newins, 1,181....		1,181
To Hamburg, per schooner Valkyrien, 428....		428
CHARLESTON—To Liverpool, per steamer Ponce, 2,016 Upland....	per ship Andrew Jackson, 3,529 Upland and 156 Sea Island....	5,741
To Havre, per schooner Lookout, 1,750 Upland....		1,750
SAVANNAH—To Liverpool, per steamer Student, 2,017 Upland and 41 Sea Island....	per ship Oasida, 2,953 Upland....	5,021
TEXAS—To Liverpool, per steamer Bolivar, 3,216....	per barks Sabine, 2,445....	Brazos, 2,632....
To Bremen, per barks Hans, 833....	Sagitta, 530....	1,443

Market steady.								

Market steady.

BREADSTUFFS.

FRIDAY, P. M., November 13, 1875

The flour market opened dull and weak, but at some decline became more active for export. On Tuesday sales were made of common shipping extras to the extent of about 20,000 bbls. at \$5 50 @ \$5 65, part for future delivery at the inside price, and the demand has been very fair since. Extreme low grades have also been in request; but medium and choice brands have been comparatively dull, with prices exhibiting an irregular decline. Rye flour has been drooping, but corn meal more active and firmer. Receipts of flour have continued large at all points, and foreign advices have been dull; holders have consequently had little encouragement in an effort to persevere to maintain prices. To-day, the market was fairly active, but at weakening prices.

The wheat market has been unusually dull for this season of the year, and prices have ruled quite unsettled. Holders have been firm at prices which shippers could not pay, and at which millers purchased only to supply pressing needs. For lots to complete cargoes rather more money was paid on Tuesday, but on Wednesday there was not enough done to establish prices. Receipts have been large at all points, and stocks accumulate considerably, but the bull party to the speculation at the West exhibits much strength. To-day there was a steadier feeling, with a fair export demand.

Indian corn has at times brought rather more money, but no permanent advance was established, and the demand was quite moderate. The business has been mainly at 76c. for prime sail mixed, afloat and for early arrival. Receipts at the West have continued liberal, but the Eastward movement has been on a reduced scale, and it seems probable that this port will be largely dependent, during the period of suspension of inland navigation, upon such supplies as can be gotten forward by rail. The supplies of new corn from the South have been trifling. To day the market was quiet and unchanged.

Rye has developed a stronger tone, and quotations are advanced, although transactions have been limited; 82c. bid for Canada in bond.

Barley has been without new feature, the demand continuing quite moderate, and prices covering a wide range, as between qualities.

Canada Peas have been much more active, with sales at \$1.04 @ \$1.05, in bond, part for Nov. arrival, and to-day they sold at \$1.06 to arrive in bond.

Oats were subject to speculative control throughout the week and developed great irregularity; prime to choice mixed advanced to 48@51c. with speculative transactions, but when it came to selling car lots to the trade the advanced prices were not so readily obtained. To-day, No. 2 Chicago nominal at 49@50c.

The following are closing quotations:

THE DRY GOODS TRADE.

FRIDAY, P. M., NOV. 12, 1875.

The package trade this week in domestic productions has been irregular, but light in the aggregate amount. No disposition has been shown on the part of either local or interior jobbers to operate beyond supplying their most urgent trade requirements, and by pursuing this cautious policy their stocks are in excellent condition. The clothing trade from large manufacturing cities have appeared in the market in small numbers, stimulating the demand for Spring woolsens to a moderate extent; increased activity in this connection is looked for in the near future. There has been less doing for export in brown sheetings and drills, but several New England corporations hold liberal orders for these goods, and it is gratifying to know that our domestic cottons have been most favorably received in the English markets. The jobbing trade is quiet, but a fair quantity of goods has been distributed in execution of orders from the West and South, in which sections business is progressing satisfactorily. About 600 cases domestic shawls—mostly manufactured by the Watervliet mills—were successfully distributed at auction, where they realized within a fraction of private sale prices, and 137 cases felt skirts were disposed of in the same manner at acceptable figures. Foreign goods have been inactive with importers and jobbers alike, but liberal amounts have been closed out at auction at a decline from previous rates.

DOMESTIC COTTON GOODS.—There has been a steady but moderate demand for staple domestics, with most relative activity in cotton flannels, corset jeans, and satteens. The export demand for brown sheetings has imparted more steadiness to prices, and the best corporation makes of fine browns have been firmly held. Bleached shirtings have been in limited request by manufacturers and the trade, and there has been a fair movement in certain makes of wide sheetings at low figures, including Nashua 8-4, 9-4, and 10-4, which were offered by jobbers at 25c., 30c., and 35c. respectively. Low grade tickings were in fair request, but other descriptions of colored cottons, including chevots, denims, cottonades, stripes, checks, osnaburgs, &c., continued dull at unchanged prices. Rolled jaconets and flat fold cambrics were more active in jobbers' hands, but the package demand continued sluggish. Grain bags, batts, yarns, and domestic twines were severally in lessened demand. Print cloths continued quiet, and prices were a trifle easier than last week, standard 64s closing at 44@45c. Prints were in irregular demand, and, while a few large sales were made at low figures, the general movement was emphatically slow. Neat plaid effects and robes were taken in fair amounts for the holiday trade—and these were firm—but fancy madders and chocolates continued depressed, and could, in some cases, be bought at a concession from nominal holding rates. Gingham and plaid cotton dress goods were in moderate demand and steady.

DOMESTIC WOOLEN GOODS.—There was more inquiry for light weight fancy cassimeres and worsted coatings on the part of the early clothing trade, and a few orders were placed for future delivery, but transactions in heavy woollens were generally light and restricted to small lots of beavers, overcoatings and repellents. Jeans and satinettes have been in limited request, but sales have been chiefly made in very small amounts, as was the case with cloths and black doeskins. Flannels have been in fair de-
